HE'S 104 YRS. OLD

FREDERICK SAUGRAIN, WHO IS AN INMATE OF MAYWOOD HOSPITAL TODAY.

NO ILL RESULT FROM RECENT FIRE

Believed to Be the Oldest Native Born Missourian—Brief Sketch of a Truly Remarkable Old Gentleman.

(From Thursday's Daily.)

Frederick Saugrain, father of Mrs. John Waddell, of this city, is 104 years old today. He has been an inmate of Maywood hospital since last Monday, when the home of his daughter, Mrs. Waddell, was destroyed by fire. Mr. Saugrain is blind and almost helpless, and it is doubtful if he lives until his next birthday anniversary.

Mr. Saugrain was born in St. Louis on March 24, 1806. His father, Dr. Antonio Froncois Saugrain, was a native of France, and one of the first settlers of St. Louis, a contemporary of Laclede and Choteau. He was a highly educated and cultured gentleman, especially along scientific lines, and was a close friend of Benjamin Franklin.

Frederick Saugrain's birthplace was a walled house in Cerre street, built with special reference to protection from the attacks of hostile Indians, which were of frequent occurrence at the time of its construction.

Mr. Saugrain was married early in life to Miss Eliza Provenchere, herself of a pioneer French family, and they lived for many years in the house where he was born.

Later the family moved to the Gravois creek neighborhood, where Mr. Saugrain followed farming during that period, becoming an intimate friend and adviser of the then ex-Captain U. S. Grant, and he was one of those who aided Grant in "raising" the log cabin in which he afterward made his home.

When the Civil war came on the Saugrains gave their allegiance to the Confederacy, and Frederick Saugrain's oldest son, Antonio Pierre, together with his cousin, Ben Von Puhl, immediately joined the southern army.

Since 1888 Mr. Saugrain has lived alternately in Sedalia and St. Louis, making his home with his daughters, but for some years has resided exclusively in Sedalia.

Up to within a very few years Mr. Saugrain was extremely active, participating with keen enjoyment in hunting, fishing and swimming, being especially fond of the latter, and he is credited with having taught several of his grandsons the latter art after having passed his eighty-second birthday.

Mr. Saugrain has three children, daughters, living—Mrs. John Waddell, of Sedalia; Mrs. W. H. Pettus and Sister Eugenia, a nun in Sacred Heart convent, St. Louis. One son, Antonio Pierre, died about twenty-four years ago. He has several grandchildren and great grandchildren living in St. Louis and Sedalia.

FOUND LITTLE FINGER

Explosion of Gasoline Almost Caused Fire—Finger Found in Door.

Tipton, Mo., March 24.—Great excitement was occasioned in this city at 3:30 o'clock this morning when an explosion of gasoline partially destroyed the shoe shop of J. F. Steinkius. The foundation of the building was loosened and part of the south wall of the buidiing blown loose.

Flames immediately followed the exposion, but quick action on the part of the citizens suooned them.

When the fire was extinguished an investigation disclosed the fact that there was a can containing three gallons of gasoline still unexploded in the store and that the interior of the structure and the contents had been thoroughly saturated with kerosene.

Immediately after the explosion a man was seen running away from the building, coming from the alley way, in the back of the building, and going east. His path was marked with drops of blood.

Later a little finger was found in front of the back door of the burned structure, from which the unknown man was seen coming, and plainly showed marks of having been caught in the doorjamb.

The door had evidently been shut suddenly on it and in endeavoring to get away the injured man had jerked the finger off.

The building that was burned was owned by G. F. Steinkius and he carried $900 insurance on it and the contents.

Married This Afternoon.

(From Thursday's Daily.)

Oscar E. Jeffries, a young farmer of near Postal, and Miss Missouri Florence Sigman, a daughter of David Sigman, a farmer of near Lookout, were married at 2 o'clock this afternoon at the Maupin home, 126 West Jefferson street, by the Rev. Williams, a Baptist minister of Dresden.

BARBER TOOK LIFE

B. WINDSOR, WHO FORMERLY CONDUCTED A SHOP ON EAST SECOND STREET HERE.

COMMITTED SUICIDE AT HOLDEN

Despondent Because His Wife Had Left Him—The Rash Act Was Committed in a Hotel Sunday Night.

Special to the Democrat-Sentinel.

Holden, Mo., March 21.—B. Windsor, aged 47 years, committed suicide last night in his room in the Cottage hotel by cutting his throat. From the appearance of the room he had stood before a mirror and hacked at his throat with a razor, but did not sever the jugular vein. He then lay on the bed, where he made deep and fatal cuts in his wrists. Long gashes were also made in the abdomen, but they were only superficial, indicating that he had not strength enough to cut deeper.

His groans brought assistance, but three hours' work by physicians failed to save his life. The door was locked from the inside, showing deliberate attempt at self-destruction. The coroner decided an inquest was unnecessary.

Windsor was a barber, and spent his young days in this county. About five years ago he was running a shop in Paola, Kas., when his wife suddenly left him with three children, aged 4, 6 and 10 years He afterwards plied his trade in Nevada, Lamar and Sedalia.

Among his effects is a permit from the Sedalia Barbers' union to display a union card in his shop at 107 East Second street, Sedalia. This permit is dated October 18, 1909.

It is understood Windsor's health failed while in Sedalia and he shipped his shop equipment to Nevada, where it is now stored.

Windsor came here a week ago with the two children, a girl aged 11 and a boy of 9 to find a home for them. His failure to accomplish this evidently wrought on his mind until it culminated in the tragedy.

"DODE" BACK FROM "PEN"

The Notorious Wench Is Soon to Become a Mother.

(From Wednesday's Daily.)

"Dode" Hubbard, a negress, who was taken to the Missouri state penitentiary last November to begin serving a two years' sentence for robbery from the person in the night time, arrived in Sedalia on Missouri Pacific train No. 9 at 1:39 o'clock this morning.

"Dode" was released from the penitentiary on account of the fact that she is soon to become a mother.

WOMEN IN A DUEL

TENNESSEEANS BATTLE WITH KNIVES IN CHURCH YARD AFTER SERVICES.

THE THROATS OF BOTH WERE CUT

One Dies, Other Probably Fatally Wounded in Jealous Quarrel Over Man—Seconds Arrested and Are Behind the Bars.

Knoxville, Tenn., March 23.—A death duel between two women, Rosa Cowan and Nellie Taylor, was fought at Kingston Sunday night under the shadow of a church, just at the close of the service.

Jealousy over Frank Kimbrough caused the fight. Both women had their throats cut, Rosa Cowan dying on the scene of the duel. Nellie Taylor, it is said, can not live. Knives were the weapons used.

Kimbrough had apparently transferred his affections from Rosa Cowan. The women met after church services.

A brother of Rosa Cowan attempted to interfere, but Kimbrough, who was nearby, refused to allow him to do so, it is said.

Kimbrough. James Welcker and Will Jordan, young men, are in jail at Kingston, the latter charged with instigating the quarrel in repeating to the woman for several days before the duel what they said about each other and feeding the flames of jealousy.

Both duelists were young women, under 25 years of age.

A $3000 FIRE LAST NIGHT

Mr. J. J. Kelleher Carried Only $700 Insurance on Place.

(From Wednesday's Daily.)

J. J. Kelleher, recently of Denver, Colo., who some six weeks ago purchased "Billy" Higgins' 160-acre farm, six miles southwest of Sedalia, for $10,000, had a bad fire at his home last night, the loss being estimated at $3,000.

Mr. Kelleher formerly lived in this county, but sold out here to go to Denver. Recently he purchased the farm and was preparing to bring his family here.

At 10:30 o'clock last night he was awakened by his horses kicking in the barn. He arose and dressed and went to investigate. When he returned to the house he was met by a circle of flame, which completely enveloped the residence.

Mr. Kelleher was unable to fight the fire and could do nothing but watch it burn. It finally died out, after totally destroying his house and contents, his chicken house and smoke house. A barn, located about a block from the house, escaped the flames.

Mr. Kelleher carried only $700 insurance.

Twins at Dr. Prowell's Home.

Mrs. J. D. Prowell, wife of Dr. Prowell, a physician of Longwood, Wednesday morning presented her husband with twin boys, both healthy "chaps." Mother and babes are getting along nicely.

RIFLES FOR A JAIL

COMMISSIONERS AT CAIRO ORDER RIOT GUNS TO STOP FUTURE MOBS.

WILL CHAIN COURTHOUSE GATES

Sheriff Keeps Roll of Citizens Who Will Use Repeaters if Necessary. The Probe Report Is Expected Today.

Cairo, Ill., March 24.—Riot guns were ordered yesterday by the county commissioners. The firearms will be placed in the county courthouse, which includes the jail, for protection against future mob violence.

Repeating rifles were selected. Chains and padlocks for gates leading into the court house yard were ordered also.

Sheriff Nellis has posted the names of 100 members of the board of trade and commercial club who have agreed to respond promptly to call from the sheriff in case of future need.

The jail hos been attacked twice within the past year by mobs, one attack resulting in the lynching of two prisoners and the other in the death of one member of the mob and injury of several others at the hands of the sheriff's deputies.

A special grand jury is now investigating the last attack. A report from this body is expected today. The inquisitors must have most assiduously dug into the causes of the

HEALTH OF PUBLIC

SENATOR OWEN ADVOCATES THE ESTABLISHMENT OF NEW DEPARTMENT.

WANTS ANOTHER CABINET OFFICER

He's in Favor of the Conservation of Our National Resources, but the Health of Our People Is of More Importance.

Washington, D. C., March 24.—In a speech today in favor of the passage of a bill introduced by himself providing for the establishment of a department of public health, similar to the nine other departments of the federal government, Senator Owen, of Oklahoma, declared that, while he was in favor of the conservation of the natural resources of the nation, "the conservation of the life of our people is of far greater importance, and the conservation of the vitality and efficiency of our people is a problem of the first magnitude, demanding immediate intelligent attention."

He spoke against the bureau system of looking out for the public health, asserting that the question was of such great importance that it could not be handled efficiently except by a separate department with powers as great as those now enjoyed by any of the other departments of the government.

"We have had bureaus for one hundred years," he said. "They are scattered in eight departments. They have been disconnected and without coordination. They ever have been jealous of each other, the one nullifying and hampering the work of the other. They have been without a responsible head because of this subdivision and because the chief of the most important of these bureaus, the surgeon general of the public health and marine hospital service, cannot express an opinion or give information until he has consulted the secretary of the treasury."

The secretary of the treasury was selected as a cabinet officer, he added, "not because of his knowledge of the public health, but because he was an expert on finance." This government officer, he thought, should not direct government activities in fighting disease. He declared that in the case of certain reports on the bubonic plague on the Pacific coast "the bureau dealing with public health was easily suppressed by commercialism and its supposed interests, putting in jeopardy the national health, the national interests and the national wealth, and was required to withhold and suppress the truth in violation of section 4 of the quarantine laws."

Under a subordinate bureau, cooperation in the fight against disease is impracticable, he declared. The bureau has not sufficient dignity or power in an emergency, he continued. It has no national standing. It cannot take the initiative, but must always stand subject to the orders of a secretary too greatly influenced by mere apparent commercial and fiscal interest.

The bill introduced by Senator Owen would coordinate into one working body all of the various health agencies of the government. It pro-

WAGER OF $5,000

DUTCH REPORTER IS WALKING AROUND THE GLOBE—IN SEDALIA TODAY.

HE CAME IN FROM STATE CAPITAL

Will Leave Tonight for Kansas City—Rides When He Has Money to Pay Fare and Walks When He Is Dead Broke.

(From Wednesday's Daily.)

On a wager of $5,000 he could tramp around the globe in five years, earning his way, Henri Montenas, 25 years old, a reporter of the staff of the Amsterdam (Holland) Telegraph, arrived in Sedalia from Jefferson City on Missouri Pacific train No. 9 at 1:39 o'clock this morning.

Montenas has been on the road fourteen months, and in that time has worn out ten pairs of wooden shoes. He makes his living by selling pictures of himself and giving lectures.

In his wager it was stipulated he would not be allowed to carry baggage of any kind. The shoes are sent from Amsterdam to places where he thinks he will need them. He rides when he has money and walks when he can not pay any fare.

During the extreme cold and snowy weather he had to buy high top shoes to keep the snow out. He said wooden shoes are warmer than leather ones.

He writes stories of his travels and sends them to the Telegraph. He carries with him a book, in which he has the autographs of President Taft and other men in the cities he has visited on his route.

Montenas will spend the day here and depart tonight, via the Missouri Pacific for Kansas City.

DEATH OF ELLEN ADAMS

Died at Home of Mr. Tillberry This Morning.

(From Thursday's Daily.)

Mrs. Ellen Adams, one of Sedalia's oldest citizens, died from senility and pneumonia at the home of William Tillberry, 641 East Sixteenth street, at 4:30 o'clock this morning. She had been ill one week.

Mrs. Adams was married when a young woman. Her husband died fifteen months later and Mrs. Adams remained a widow throughout her life. She was about 87 years of age, although she said herself she did not know her exact age.

Funeral services will be conducted by the Rev. Daniel Healy, a former pastor of St. Patrick's church in this city, now of North Springfield, Mo. The interment will probably be at Kansas City.

Parish Funeral Sunday.

(From Thursday's Daily.)

The double funeral of Mr. and Mrs. Milton Parish, former Sedalians, who were killed in the Rock Island wreck near Marshalltown, Ia., last Monday, will be conducted by the Rev. David Roberts, of this city, at Bethlehem church, south of Sedalia, at 11 o'clock Sunday morning. Burial will be there. The bodies arrived here last midnight.

Registered 87 Degrees Yesterday.

Jot it down for future reference that the maximum temperature in Sedalia on Wednesday, March 23, was 87 degrees in the shade, and as a result several straw hats made their appearance

BATTLE ON TRAIN

DRUNKEN MAN SLAYS PORTER, CONDUCTOR, AND STANDS OFF PASSENGERS.

FINALY WAS SHOT DEAD IN CAR

Murderer Holds Police Off an Hour After Station Is Reached—The Dead Man Had Been Drinking Heavily.

Wilmington, Del., March 24.—An exciting battle in which three men were killed and several were injured, occurred on a north bound Baltimore & Ohio train yesterday. The fight began at Newark, Del., and ended in this city. The dead are: O. E. Wellman of Philadelphia, conductor of the train; Samuel Williams, the colored porter, and J. H. Bethew of Dillon, S. C.

John O. Willis, a park guard of Wilmington, Del., was shot in the hand and leg, and Matthew Hailey, of Wilmington, was shot in the leg, while others were grazed by flying bullets.

Bethew, who had been drinking heavily, quarreled with the porter, and shot him through the heart, killing him. Conductor Wellman remonstrated with Bethew, who, without a word, shot Wellman through the heart, and the conductor fel ldead.

The murderer then stood off the passengers until the train reached Wilmington. When it came into the station a hurry call was made to the police station and a squad of patrolmen, reinforced by park guards and a posse of citizens and trainmen, ran to the scene.

The police called upon Bethew to surrender. As an answer he opened fire on the police and the crowd. Bethew is believed to have had at least 100 rounds of ammunition, for he succeeded in holding the posse at bay from 5:17 until 6:35 p. m. During this time many shots were fired on both sides, until finally all the windows of the car were riddled and travel over the Baltimore & Ohio was tied up.

When the battle had lasted about an hour the police asked aid from a fire company near by. The firemen, barricaded behind trucks and boards, played a stream of water upon the windows of the car, and Bethew, drenched with water, staggered to the platform. The police once more called upon him to surrender, but his reply was several shots in quick order from his revolver.

As Bethew emptied his revolver, Police Captain Evans fired a load of shot into his face. Notwithstanding this injury he kept on blazing away. Patrolman Boughman opened fire with a pistol and struck Bethew in the right arm. The desperate man tried to fire again, but the police closed in, and as they took hold of him he fell dead in the arms of a patrolman.

When Williams was shot he fell into a seat in the car, and all through the battle the dead porter sat with the appearance of one looking from the window.

Bethew was well dressed. While it was believed by some of the passengers who fled when the train reached Wilmington that the desperado was insane, other passengers stated that he appeared to be sane, but had been drinking.

"LOUD" SOCKS TABOOED

Knitted Ties Are to Be Worn With Closed Collars.

Back to the shades of oblivion for "passionate" socks, noisy neckties and spectacular shirts! No more will it be proper for the college youth to roll his trousers half way to his knees and display hosiery which would make the flag of a matador look like a faded bunting.

Neither will it be correct for him to disport a tie which might make him think of an accident in a dye house Fashion has decreed that colorings in men's haberdashery this spring and summer shall be subdued.

Socks are to be of the "whisped lisle" variety—that is, light and thin, say the dispensers of men's apparel. A few styles will be embroidered, but plain colors will be the general rule. The particular dresser will wear socks and tie to match. Knitted ties are much in evidence, worn wi a closed collars.

"VALE, CAESAR," SAYS WATTERSON.

In an editorial on "A Rift in the Clouds" the Louisville Courier-Journal says:

"The democrats have been burning black smoke so long that they are apt to overestimate any good fortune that may come to them. The triumph in the lower house of congress, which they owe to the insurgent republicans, starts the braves to shouting, 'Wake, snakes, day's-a-breakin',' when it were, perhaps, fitter for them to murmur, 'Small favors thankfully received.' It is a long way from the overthrow of Cannon, who in the course of nature, had not long to stay, and the election of a democratic president in 1912. Very many things are likely to happen between now and then. The victory indeed may prove more seeming than real.

"In the meantime the Courier-Journal stands up on its hind legs and says in its artless way: 'Uncle Joe you has our sympathy, they done you dirt—they sure did. Stand up, you magnificent old reprobate, whilst we salute you, and, amid the cowardly clamor and the ribald jeers, we render you homage of a life-long foeman. You fit a good fight. You held out long and well. Except that you are an old man, they would not have dared—but, even at that, you made them play ball. Now they want to unload on you the sins of the republican party; to find their explanation in your slaughter; to make that a virtue in Roosevelt and Taft which they find a crime in you; in short, to personalize their own system as Cannonism, and, having cast out Cannonism, to reappear as good as new, a sinless as doves, as stainless as snowflakes—you, after your fifty year of service, to pay the forfeit, they to get the reward.

"Ah, Joseph, Joseph—dear old Uncle Joe!—it is true enough that parties, like republics, are ungrateful. At least, you told them no lies. You stood to your guns, which, until there came a fire in the rear, were their guns. The young may die. The old must. Your time has come, Uncle Joe. Better go down with colors flying than peter out in a long drawn agony of hope and fear.

We rejoice that the system with which you were allied no more than others who went before you—which was no more Cannonism than Reedism or Crispism, or Carlisleism, or Blaineism, for it was practiced and illustrated more or less by every speaker of the house—has gone down with you, for it was a bad old system, quite eliminating the spirit of representative government. The proposed change will prove good for the country and not ill for the house. It will lead to other reforms until high parliamentary methods prevail in congress. Meanwhile, as to you, Uncle Joe, here's 'How.'

"We looks toward you, Joe. There shall still be cakes and ale. Join us, old enemy, join us in singing that good old song, 'Never Say Die Till the Sea Goes Dry; We'll Get Over the Double Trouble in the Sweet Bye and Bye.'"

A MOST CRUSHING DEFEAT.

It's the handwriting on the wall.

First, Missouri, in a by-election in the Sixth district, shows a wonderfully increased democratic majority, so startling that it attracted the attention of the entire world.

And now comes Massachusetts Yesterday in the Fourteenth district of that state a democrat defeated a republican by a majority of 5,640. In change of 19,890 votes, and by a man who is not even a voter in the district that elected him.

In the whole history of the country there has never before occurred so tremendous a change in the public sentiment of one congressional district, and to say that it is epoch-making is not exceeding the bounds of reason.

The people of the United States are aroused, as never before, to the injustice of republican legislation and are determined to rebuke the arrogance of those leaders who direct every act of the dominant party.

Never before has a national administration, republican or democratic, been so thoroughly repudiated within a year of coming into power; never before has a president been so humiliated as has Taft; never before have leaders been denounced and deserted by their own party as have Aldrich and Cannon.

It is the beginning of the end, and just as certain as next November comes, just so sure are we to have a democratic majority in the lower house of congress, and then if that majority doesn't lose its head nothing can prevent the election of a democratic president in 1912.

THE ERA OF HIGH PRICES.

It is a good sign that nobody seems prepared to instantaneously announce the cause of high prices. We have had too much quack doctoring of economic ills, and it is well that all the authorities are at this time withholding judgment.

There has been allegation that folks have been hurrying to town to live until the farms dont realize sufficient to feed us all. The answer comes promptly, however, that of the most primary agricultural products we are raising more per capita than ever before. We must look further. Combinations, big and little—of manufacurers, of transportation, of merchants—are charged with large responsibility. The universality of the complaint points the need of finding a universal cause; and more and more serious attention has been given by economists to the increasing supply of primary money metal, gold, as the universal cause.

Without doubt, says the Success Magazine, the increasing output of gold is an important factor, but there is an underlying cause in the changing conditions of living. We may call it extravagance, but it is not merely that. It is the effort of the people to appropriate their share of the advantages, the comforts, the luxuries, if you will, which modern conditions of industry, invention and science have made possible.

At one side we see the powerful few, with multifold devices of organization, over-capitalization, patent-protected monopoly, subsidies, tariffs, privileges of all sorts, seeking to control production.

On the other side are the millions, insistently reaching out for means to supply new needs, to indulge new ambitions, to gratify new tastes. The captain of finance exploits his industry by means of over-capitalizing it in order to squeeze more profits from it; his employes exploit it by enforcing demands for higher wages. The joint burden is laid on the consumer.

The present phenomenon in economics finds its parallel in earthquakes. Pressure forces readjustment in the earth's crust, and when the pressure has been borne as long as possible there is suddenly a slip and readjustment along the line of geological "fault." This slipping and readjustment comes suddenly and with terrific force.

Very similar is the present readjustment of price conditions to the long accumulating pressure of economic and social conditions. The pressure has been there right along, the slip and the earthquake have come suddenly.

DISHONEST FABRICS.

An article headed "Deceiving the Shopper," by Nellie Crooks, appearing in the current issue of Harper's Weekly, should have the attention of the women's clubs of the country, federal, state and municipal.

The article shows photographs of a towel sold as "pure linen," from which acid has washed out the cotton with which it was adulterated, leaving a residue of linen; a sample of black and white silk, sold at 59 cents a yard, but loosely woven and weighted with 71.14 per cent of mineral matter; dress material sold as "all wool," price 75 cents per yard, containing 34.12 per cent cotton; "good quality" taffeta silk at $1 a yard, weighted with 38.09 per cent mineral matter; a handkerchief stamped "warranted all pure linen," wit hnot "warranted all pure linen," with not at $2.50, as "50 per cent wool," found by Dr. Vaulte at the chemical laboratory of the Teachers' college, to be only 11 per cent woolen and 83 per cent cotton.

Women are primarily interested in this gross revelation of dishonesty The women of the United States spend most of the $890,000,000 annually devoted to furnishing households with clothing and other textile fabrics, none of which is protected by an honest libel law or provisions against adulteration—and the methods of adulteration have become very skillful.

Women have obtained laws for the labeling of foods and drugs. During the recent revision of the tariff they protested, although unavailingly, against the greedy and extortionate increases upon dress goods and other fabrics.

But unless the republican party is willing to shield the tariff-fattened manufacturers in their despicable practice of palming off, at the high prices they are enabled to exact, inferor and adulterated goods under false labels, it can not refuse a formulated demand to enact laws against the practice. Under the present unconscienceable tariff we should at least have "all wool" goods that are all wool, "all silk" goods that are all silk and "all linen" goods that are all linen.

Louis Weyland and sister, Miss Gertrude, have returned home from a two weeks' visit at the home of P. L. Huff, at Rockville, Mo.

A. A. Brenton, Missouri Pacific agent at Fortuna, spent last Thursday in this city.

The Hickam & Bradley Concert Co. will appear at the Ross opera house Friday, April 1.

Mr. and Mrs. Ira B. Decker and Miss Lola Decker, of Otterville, spent Thursday in this city.

Walt M. Monroe transacted business in Versailles last Thursday.

H. M. Childers sold his house and three lots in Byrd's addition last week to Miss Lee Gilbert. Consideration, $500. Mr. Childers and family moved to Charles City, Ia., to make their future home.

Everette Pizer, editor of the Tipton Times, deserves credit for the fight he is waging in the columns of his paper for electric lights and waterworks for Tipton. This would be a great improvement for our city. It would enhance the value of real estate, bring other enterprises here and induce more people to locate here. Your correspondent would be pleased to see this made an issue in our coming city election. Let every citizen who has the interest of his city at heart work for a "Greater Tipton."

T. D. Rucker arrived home last week for a few days' visit with his family.

Mrs. Rosina Lamster has moved to Pilot Grove, where her son, John, is employed by the M., K. & T. railroad as section foreman.

Paul Berry, of St. Louis, spent Saturday in this city, soliciting business for his firm.

Henry Brant and daughter, Miss Philomena, returned Sunday from a visit to relatives and friends in Kansas City.

Easter services at the Catholic church will be as follows: First mass at 8 a. m.; solemn high mass at 9:45 a. m., with sermon by the pastor, Rev. Father Kueper; vespers at 2:30 p. m.

B. M. Ivy left Tuesday on a trip to Marshall, Mo., as a delegate to the Central Presbyterian church convention, which convened the 22d, 23d and 24th. Mr. Joy has also been selected as a delegate to the national convention, which will be held in Dixon, Tenn.

Mrs. Eugene Darby, of Boonville, is visiting her parents, Mr. and Mrs. Henry Swadley, on Howard street.

Henry Bryant, of Sedalia, spent Wednesday in this city.

A granitoid sidewalk is being laid on the east and south sdes of the Traders' bank, which is quite an improvement to the property.

James Foley, of Fortuna, returned home Wednesday from a business trip to St. Louis.

Mr. Wash Williams, of Crestline, Ohio, is here on a visit to his brother, Thomas Williams.

THE THIRD HOUSE

Editor Democrat-Sentinel:

The movement launched by the Sedalia Federation of Labor to establish a co-operative garment factory in Sedalia, and the plan upon which it will be organized, is attracting nation-wide interest among the organized wage earners. The project is being watched with keen interest by the women's organizations devoted to the betterment of the conditions of the women wage workers. Numerous inquiries have already been received concerning the progress and probable success of the movement. Several of the inquiries have been accompanied by substantial remittances, either as a loan or as an absolute donation. Local interest is also increasing, as the plan and scope of the project becomes better understood. The union men are responding. They are determined to "make it a go." Already enough money has been collected to pay for enough machines and equipment to give employment to twenty persons. A building has been leased, and the machines will be installed within a week or ten days. The building for the factory will be placed in the best possible sanitary condition, and everything will be done to make it a pleasant and agreeable place to work in.

Many persons have offered to purchase stock in the factory, being under the impression it would be a stock company. There will be no shares of stock sold. No one will have an interest except those who work in the factory. It will be a co-partnership concern. Each will have an equal interest. Sufficient capital will be advanced by the union men of Sedalia and their friends to equip the factory and purchase the material. The money thus advanced will be in the nature of a loan. This loan will be non-interest bearing, non-negotiable and non-transferable.

Payments on the loan will begin one year from the time the factory begins operation. Payments will be $25 a month, or more, at the option of the co-partners. A board of advisors, which will be elected by the Sedalia Federation of Labor, will also act as trustees for the loan. The factory will be owned, operated and controlled by the persons employed therein. They will be equal partners. The manager and other officers of the concern will be elected by the co-partners.

Since it will be a union factory, "from cellar to garret," it follows that union wages will be paid.

There will be no fat jobs for a few because they happen to have a little greater financial interest than the rest, all having an equal interest. Sinecures for a few at the expense of all the rest will be impossible.

Interest in the factory will be acquired, first, by setting aside a small portion of the wages earned, and, second, a percentage of the net profits accruing to each individual member. Surplus capital for new members will be created by setting aside a portion of the net profits. As the business of the factory increases new members will be admitted on the same basis as those who went in at the start. Each member will be required to subscribe to the co-partnership agreement, which will form the basis upon which the factory will be conducted.

Every person employed must become a co-partner. New members will be admitted by a vote of the co-partners, and will receive profits in proportion to the amount paid on their share in the factory and wages earned.

No capital (money) can be borrowed where interest must be paid.

At no time shall the membership of the factory exceed the pro rata capital necessary to safely conduct the business.

All goods shall be bought for cash and sold for cash.

Membership or interest in the factory can not be assigned, transferred or pledged for debt.

Members desiring to withdraw can do so, and will be paid their share in weekly, semi-weekly or monthly payments in amounts equal to the average payments made by them when acquiring an interest.

Enough orders for shirts from local union men are in sight to give employment for the first three months. It will be the aim of the co-operative factory to give full value. The retail price will be stamped on every article. Assurance has already been given by active workers in the trade union movement in other towns that they will be able to place the co-operative factory's product in a number of stores.

Local unions everywhere will at once constitute themselves agents, and will solicit merchants in their respective localities to handle the products of the co-operative factory, and, failing in this, the consumers will be supplied direct.

The plan here outlined is simple, feasible, rational, practicable, and is based upon the simple idea of a co-partnership of partners with equal interests. It is the first effort of the kind ever attempted anywhere which will be free from speculation or graft. It is a plan based upon the same principles as our unions are based.

Here is a plan that gives the workers absolute control of their own jobs, their own destinies, securing to themselves all the benefits of collective industry. The workers, who, in this instance, will be principally women, if not entirely so, will at least secure the greatest possible degree of economic equality. They will receive, first, the maximum of union wages, and, being their own employers, will also receive their share of the net profits that otherwise go to the persons who invest only their dollars. Larger incomes for the workers will bring broader opportunities, better homes more congenial surroundings and once freed from the terrible spectre of unemployment, a better citizenship.—E. T. Behrens, Secretary-Treasurer Sedalia Federation of Labor.

ALL CANNON MEN

THEY FILL THE NEW HOUSE COMMITTEE ON RULES—ELECTED LAST NIGHT.

"UNCLE JOE" AGAIN IN SADDLE

Result of Insurgents' Rebellion Annulled and Fight Must Be Renewed—Fake Show Followed by Steam Rollers.

Washington, March 24.—Cannonism has arisen from its ashes. As the result of the action of the republican caucus last night, Cannonism, as well as Cannon, is again a national issue.

Six Cannon henchmen, whose records in every detail identify them with the reactionary influences within the republican party, after a stormy session lasting from 8 o'clock until midnight, were chosen by the caucus to fill the republican places upon the new rules committee of the house.

In spite of the rebellion of the insurgent republicans, whose votes, in addition to those of the democrats, put hrough the Norris resolution last Saturday providing for a larger rules committee ,minus the speaker, the new committee is to be controlled as long as the "Iron Duke" is in the chair.

The machine's steam roller flattened out the insurgents in the caucus with ease. A fake show of free election was provided, but the whole affair as well could have been settled in fifteen minutes.

Having a majority in the caucus bound to his organization, Cannon passed out his "slate" and the majority of the caucus indorsed it. The insurgents, having attended the caucus, are required to accept its verdict by all the laws of party politics.

This is the new committee:

John Dalzell, of Pittsburg, Pa., Cannon man, member of the old rules committee, representative of the United States Steel corporation district, conservative in all railroad, tariff and trust legislation.

Walter I. Smith, of Council Bluffs, Ia.; Cannon man, member of the old rules committee, an anti-Cummins "reactionary" tariff standpatter and conservative.

Henry S. Boutell, of Chicago, Ill.; Cannon man, tariff standpatter, friend of the Beef trust, conservative in railroad and trust matters.

J. Sloat Fasset, of Elmira, N. Y.; Cannon man, tariff standpatter, conservative and leader for years in New York republican machine politics.

George P. Lawrence, of North Adams, Mass.; Cannon man, chief worker in the "Crane machine," conservative and standpatter.

Sylvester S. Smith, of Bakersfield, Cal.; Cannon man, standpatter, conservative, who is charged with Southern Pacific affiliations.

GENERAL BELL BETTER

Chief of Staff of Army Is on Road to Recovery.

Washington, March 24.—Major General Bell, who was injured yesterday in an automobile accident, was pronounced on the road to recovery today.

LOCAL Y. M. C. A.

ANNUAL MEETING OF DIRECTORS AND MEMBERS WAS HELD LAST NIGHT.

TEN NEW DIRECTORS ARE NAMED

Mr. J. H. Piper, the General Secretary, Submitted His Report, Showing the Receipts and Expenditures for Twelve Months.

(From Wednesday's Daily.)

The annual meeting of the board of directors and members of the Y. M. C. A. was held in the asociation rooms last night.

Ten new directors were elected to fill vacancies and enlarge the board of eighteen members, as voted at the meeting held March 11. The new men are:

W. O. Stanley, East Sedalia Baptist church.

A. A. Ridenour, from the First Congregational church.

Mack D. Looney, from the First Christian church.

W. M. Slagle, Epworth Methodist Episcopal church.

M. M. Stevenson, Fifth Street Methodist Episcopal church.

C. M. Price, Calvary Episcopal church.

Mr. M. L. Myers, Trinity English Lutheran church.

J. E. Cannaday, M. D., Broadway Presbyterian church.

E. E. Stafford, Central Presbyterian church.

Dr. Cord Bohling, German Methodist Episcopal church.

The above, with the old members of the board, whose terms have not yet expired, will meet at an early date and elect a president for the ensuing year.

The board elected a board of five trustees to handle all real property of the association and to hold and invest all endowments for the perpetual use of the Young Men's Christian Association.

That board consists of John Montgomery, Jr., Wm. Alspaugh, Geo. C. McLaughlin, D. H. Smith and S. E. Spencer.

At the first meeting they will determine their term of service.

The board voted to buy three new mats at once, one 5x10 feet and two 5x5 feet. They are much needed and will be appreciated by the members. The wrestling and tumbling classes can be conducted now.

Secretary's Report.

Following is the report of the general secretary, Mr. J. H. Piper:

Mr. President, board of directors, members and friends of the Sedalia Young Men's Christian association: In making this report I want to recognize the help, guidance and blessings of our Heavenly Father and thank Him for the great success that has marked the first year of work for the betterment of the growing men of this city, after a lapse of fifteen or more years.

Starting out as you did a year ago without cash or financial backing to guarantee the purchasing of equipment or supervision, just stepping out upon His promises to find them safe and sure, increases our faith in Him who loves His children and careth for them. We will always find that our success depends upon our faith and dependence in our Lord and Master.

The financial and statistical record attached to this report does not tell of the dark days, trying hours and sleepless nights, of the struggle against the pessimism of some of those who should have been first to support such a cause; neither does it tell the story of all that has been accomplished the past year.

Many men and boys, as well as fathers and mothers, are better on account of the efforts of your association. We will not know the full value of all till the roll is called up yonder, and hear the records given there. The city has long needed such an organization as the Young Men's Christian association, and it was for you young men who felt keenly the lack of such an organization, and a burning desire in your hearts to help men and boys needing friends and protection, to make the grand struggle that you have made; and now at the close of the first year, with all bills paid or provided for by good and reliable pledges, you will feel that it has all been worth while, and you can see many known results that are a joy to us all.

There Were Many Dark Days.

The past seven and a half months we have labored together, dark and discouraging have been many days, yes, weeks; coming to you from a distant part of our country, and a part where the association is known, loved and well supported, I could not understand the seeming indifference and lack of sympathy and support of the business men, as well as many of the men and women who are trying to live as their Master would have them live. Yet through it all my faith has been strengthened, and my desire to help men deepened. I have found out that all the good people of Sedalia wanted to know was, "are you doing anything worthy of our support," and when they knew of our work and results they co-operated splendidly.

"Be not overcome with evil, but overcome evil with good," has been our aim, and as we know the young men who have found that the companionship and associations of the rooms have overcome the desires for the saloon, drink and evil companionship, and others have so enjoyed them that they have been kept from temptation to sow wild oats that we feel sure that we have often hit the mark aimed at.

Men less fortunate than ourselves have found the association was always ready to help them, no matter what condition they were in. "For I was an hungered, and ye gave me meat; I was thirsty, and ye gave drink; I was a stranger, and ye took me in; naked and ye clothed me; I was sick, and ye visited me; I was in prison, and ye came unto me." Matt. 25, 35-36.

We have tried to do the Master's will in this respect, and as will be seen in the records that 59 men have found the rooms a clean, comfortable and wholesome shelter when they did not have the money to provide such; 168 men and boys have come to us hungry and been fed; the sick have been cared for and nursed back to health; employment has been secured for many men. More could be done along these lines if we could know of more employers needing help.

The rooms have been open daily from 9 a. m. to 10 p. m. and Sundays from 2 to 6 p. m., thus representing the church all the week through; and providing reading rooms, game rooms, gymnasium and bath rooms, and an environment that stimulates the growing men to make the best use of their bodies and influence. The association does not try to duplicate the work being done by other organizations; it has a large field of work of its own, and much of it yet untouched.

Membership Fees Lower.

The membership fees of the association do not, and never will, cover the running expenses. Catering as we do to the men and boys from every wak of life, our fee must necessarily be low, and much of the work done is for those outside of the membership, so we will depend upon the men and women who believe in the kind of work accomplished by our organization for support.

This year $1,033 nas been contributed by over 175 different people; the largest gift was $100 and the smallest 10 cents. We feel that the support of our work has not been burdensome on the city or its citizens. We want to thank each contributor; the churches for opening their pulpits for the presentation of our work and their financial backing; Mrs. Demand and the ladies who worked so hard and gave the dinner and supper October 20th, which netted $82.55; the King's Daughters of the First Congregational church, who gave the musical which totaled $100; Mrs. Miner and Mrs. Harris and ladies of the Broadway Presbyterian church for the $172.05 secured from dinner and supper served; the Ministers' alliance and committee who donated the $90 from the Torrey Tabernacle fund; and Democrat-Sentinel and Sedalia Daily Capital who so freely, courteously and generously gave valuable space for presenting our work; the business men, the different societies, and all who have contributed cash, books, bedding, furnishings, or in any way helped to make the work the great success that it has been.

We are not forgetting the pastors, laymen, musicians, soloists and others who have given of their time and talents to make merry our socials, or profitable our Sunday men's meetings. We want to heartily thank all and assure them or our deep appreciation.

Assisting in the Work.

On March 1st, Herman Demand entered the work as assistant secretary, and already his influence, enthusiasm and faithfulness proves his value to the executive force. His special duty will be securing renewals and new memberships, but he will be in charge of the rooms in the absence of the secretary.

Mr. Harvey H. Barth came to us on March 6 to take up the leadership of our physical department. Although he has been with us but a short time, he has shown himself to be the right man for the right place. He is not only conducting the work in the gymnasium, but is assisting in coaching the High school boys, and is commencing a course of athletic events in the grade schools of the city, working with the boys of the fifth, sixth, seventh and eighth grades. He will also introduce volley ball into the schools for the benefit of the girls, so that they may receive help as well as the boys.

Our present quarters are poorly located and insufficiently equipped for the great demand of the growing men of our city. The rooms have been made as attractive as possible, and have been appreciated by a large number of men and boys, but a building should be built, specially constructed, equipped and attractively furnished to draw young men under such protection, clean and wholesome environment that will build character that will stand the test of time and eternity.

Many places are attractively furnished to draw young men into the whirlpool of sin and poverty; and the people of Sedalia who want better things and want their sons to grow up strong, clean men, or want such to marry their daughters, as well as to have a city governed by honest, straightforward men can do no better than build a Young Men's Christian association building, because it is a man factory.

The Work Is Growing.

It is being recognized as such the world over, and 147 cities in the United States the size and smaller than Sedalia have buildings built and owned by the Young Men's Christian association. No organization comes in, and touches the lives of men and boys, and influences them for better, as does the Young Men's Christian association. I hope before another year's end is reached that we shall have a building which will not only be adequate for our present need, but will be large enough for our future growth. May it be an ornament and character building plant of our fair city, the Queen of the Prairies.

When we look at the two thousand men who live with us, whose homes are elsewhere, and then look at more than that number of our own men and boys, our heart cries out for money to build a building to guard and protect them in their leisure time, and provide educational, physical, social and spiritual opportunities of bettering themselves. May the day soon be here when some public spirited man or woman shall give the first $10,000 which shall make such a building possible. No like amount can be expended where it will yield such large dividends.

In closing I want to thank you, Mr. President, board of directors, members and all for your co-operation, sympathy, friendship and support during the months I have been with you. May God continue to bless us and our work. Respectfully submitted—J. H. Piper, General Secretary.

Australia's Most Popular Hostess.

Countess of Dudley, the American girl, who, besides being the first lady of the land in Australia, is one of the most popular hostesses in the capital city of that far-off continent. Her social success, however, is no surprise to her friends in England and Ireland, where she is immensely popular.

The countess is a daughter of a Quaker banker, who failed, leaving his family penniless. His daughter, the present countess, opened a millinery shop in London, where she built up an excellent trade. She became very intimate with the Duchess of Bedford and it was at that lady's home that she met her husband. The couple were married in 1891, King Edward, then Prince of Wales, being present at the wedding. She was always a favorite of his majesty and acted as one of his literary advisers. Her husband, besides being very handsome, is exceedingly brilliant and popular. Before his apopintment to the post of governor general of Australia he had been lord lieutenant of Ireland. The duchess has seven children, the youngest of whom are twin boys.

The present building, which is doing duty as a depot, was erected many years ago and is entirely inadequate to accommodate the present amount of traffic.

Conductor Hubbard Killed.

A Moberly, Mo., dispatch of the 23d says:

"Conductor Joe Hubbard was killed in a collision which occurred about 6 o'clock this morning at the junction of the Wabash and M., K. & T. railroads, near Evansville, in Monroe county.

"Hubbard resided here, is married, but has no children. The wreck took fire and terribly burned the conductor's body.

STATE OFFICIALS OF NEW YORK MAKE SOME VERY SERIOUS CHARGES.

GRAFT LASTED FIFTEEN YEARS

"Black Horse Cavalry" Raided the Coffers of Fire Insurance Companies and Got Big Sums as a Result.

New York, March 24.—Raids of the Black Horse Cavalry at Albany upon the coffers of the fire insurance companies were dealt with at length at yesterday's session of the state insurance department's investigation of the amounts paid for legislation by the insurance companies. It was declared:

1. That in 1892 an alleged go-between, who said he represented "Big Tim' Sullivan, then an assemblyman and a member of the assembly insurance committee, demanded $10,000 of George F. Seward, president of the Fidelity and Casualty Co., to kill a bill to limit that corporation's business. Seward sent this message to Sullivan: "Go to hell.'

2. That fifteen years ago Assemblyman Town and a member of the insurance committee, through a go-between, demanded $40,000 of Elijah R. Kennedy, legislative agent of the New York Board of Fire Underwriters, to kill a valued policy bill. Kennedy exposed this demand at a meeting of the committee on insurance, and later the go-between dropped from $40,000 to a few hundred dollars, but he got nothing.

3. That when he was fighting the Sullivan bill, aimed at the Fidelity and Casualty Co., President Stewart was approached by Assemblyman Goldberg, of Buffalo, who said that if there was money in it he proposed to have some of it, and wanted to know what there was in it for him to help beat the bill.

4. That as recently as 1908, Senator Thomas F. Grady made a bitter and successful fight to prevent the repeal of the Brady re-insurance law which was passed in 1904, it has been charged, after its way was brought through the legislature at a cost of $5,000. This law benefits three foreign re-insurance companies and injures 240 American companies.

5. That the state insurance department has been used to discredit certain companies and their management, to drive out existing officers and to make places for a new set o high salaried men.

6. That Lou Payn, former head of the state insurance department, helped George P. Sheldon, the legislative agent of the insurance companies, to keep tab on insurance legislation as recently as 1908 by having one of his henchmen, a clerk of the senate committee on insurance, inform Sheldon of all the secrets of the committee. For four years' work this henchman, Cornelius Shufelt, a lawyer of Chatham, N. Y., received only $334 from the fire companies.

7. Elijah R. Kennedy was able to recall the names of the members of the assembly committee on insurance of 1879, thirty-one years ago, but still forgets the names of the republican leaders to whom he made "presents out of the yellow pup fund of 1901.

THE LEAGUE ADJOURNS

To Meet in Kansas City at the Call of the President.

(From Thursday's Daily.)

At the night meeting of the conference of delegates from the cities, counties and commercial leagues, on the reformation of the tax system, last night in the criminal court room, the following resolution was submitted by Frederick N. Judson, chairman of the resolutions committee:

Whereas, gross inefficiency and inequalities result from the operation of the present tax system of Missouri, and,

Whereas, such inequality and lack of efficiency lead to unjust distribution of the burdens of taxation, and,

Whereas, this conference believes that such modifications of the constitution and statutes of the state should be made as may be necessary to secure efficiency and justice in taxation, therefore be it

Resolved, That a committee of five be appointed by the chairman of this conference to draft a plan for securing the necessary reforms and to report the same to an adjourned meeting of this conference to be called by the president of the Missouri Municipal league at an early date.

The report of the committee was unanimously adopted.

On motion of Mayo Festor, of St. Louis, Chairman Isador Loeb was made a member of the committee of five.

After a discussion of the best plans of getting a good representation at the next meeting, which is to be held in Kansas City at an early date, the meeting adjourned, after extending a vote of thanks to Sedalia and her citizens for the many courtesies received, at the call of the president of the Municipal league, L E. Bates, of Webb City.

Des Moines Lost Its Fight.

Washington, March 24.—The city of Des Moines, Iowa, today lost its fight for a readjustment of freight rates to points in Western Minnesota and North and South Dakota, when the interstate commerce commission announced its decision on the complaint of the "Greater Des Moines" committee.

DRYS ARE BEATEN

CHICAGO BALLOT WILL LACK QUESTION UNLESS UNEXPECTED RULING.

PETITION IS FOUND TO BE SHORT

Unofficial Check Shows Enough Illegal Names to Kill Document—Not Sufficient Time to Remedy Defect.

Chicago, Ill. March 23.—Yesterday was a crushing day for the "drys."

Unless something unexpected occurs, the saloon question will not go on the ballot April 5. There are not enough "regular" names on the "drys'" petition. Besides, the "drys" met defeat when the election commissioners ruled against them on the legal points they raised to save their election petition from being discarded.

Simultaneously it was unofficially revealed that sufficient names on the petition had been found to be illegal to prevent putting on the ballots to be voted upon April 5 the question, "Shall Chicago be declared antisaloon territory?"

This latter disclosure could not, of course, be officially verified, but it was learned that out of approximately twenty wards that had been covered by the commission's clerks, who are checking the poll lists with the "dry" petition, more than enough "illegal" names had been found to kill the petition.

This, according to expressions from attorneys for the "wets," means Chicago will not vote on local option this spring. The reasons advanced are these:

"Any attempt to stop the board from printing ballots which do not contain the local option question must be done before today, on which day the city's contract with the printers requires copy of the ballot to be furnished.

"When the supreme court is not in session its members have no power to issue writ of mandamus, as the court held two years ago, when the 'wide-open Sunday' petition was presented by the 'wets.'

"The Illinois supreme court is not now in session and could not be called in time to get results. It meets again election day.

"If a writ is asked of a circuit court an appeal will be taken to the supreme court, which will tie it up again."

According to revised figures, given out by the election board, 431,187 voters have registered for the April election.

The highest previous total was 409,431 in 1908.

BIG STRIKE IS SETTLED

Philadelphia Rapid Transit Co. Agrees to Arbitrate.

Philadelphia, Pa., March 21.—United States Senator Boise Penrose broke the car men's strike last night One by one he called before him the reluctant directors of the Philadelphia Rapid Transit Co. and forced them to accept the terms that were outlined last Friday night by the powerful financial interests.

The status of the 175 motormen and conductors, who were discharged "for the good of the service," the act which precipitated the strike, is to be left to the arbitration of a board of three men

The Rapid Transit Co. is to name one man, who will be President Kruger, no doubt; the carmen's union is to name the second, Timothy Driscoll, in all probability, and these are to select the third.

In agreeing to this the Rapid Transit Co. knuckles down to the principle of arbitration, which it had uncompromisingly held out against up to the last hours of the fight.

DR. COOK IS BROKE

A MISSIVE FROM HIS WIFE IN CHILE REVEALS CONDITION AND PLANS.

MAY ARRIVE IN NEW YORK TODAY

Money Made Off His Lectures Spent, Health Gone, Dispute Ended—Wife Kept Him From Defending Himself.

Bellingham, Wash., March 24.—Dr. William H Axtell, a personal friend of Frederick A. Cook, yesterday received a letter from Mrs. Cook, dated Valparaiso, Chile, in which she says the explorer is broken in health, without funds and unable to continue his fight to establish his claim that he discovered the pole. Cook is expected in New York tomorrow. Dr. Axtell said:

"Mrs. Cook tells me in her letter that Cook made considerable money out of his lectures on the trip, when he first arrived in New York, but that he spent it in defending himself against bitter attacks from his enemies and before the Copenhagen decision was made public.

"Cook left New York later to escape contumely, says Mrs. Cook, and to go before the board of inquiry at Copenhagen as his own representative. Then Mrs. Cook followed him, met him in England, found him a nervous wreck and very ill.

"She writes that it was her fault that Cook did not appear publicly at the time he was unfavorably reported on. She says she took him to Holland, France, Italy and then to Spain, where they embarked for Beunos Ayres.

"From Beunos Ayres they went around Cape Horn to Chile. Cook is still very ill and will be in no condition to take up his fight for the honors which he still says should have been his."

Dr. Axtell added that, according to the letter, the explorer and his family will arrive quietly in New York today and will settle down for a quiet life.

"Mrs. Cook says," he continued, "that her husband has no funds with which to go to the Arctic regions after the proofs required by the University of Copenhagen and that if he had the necessary cash, he knows no one he could trust to do the work for him."

Brother Doesn't Know Plan.

New York, March 24.—William L. Cook, a Brooklyn milk dealer and brother of Dr. Frederick A. Cook, said last night that if the doctor was to arrive in New York today he was not aware of it.

He added that he had hear from the explorer recently—from what point he declined to say—and expected another letter soon.

HUSBAND KILLED CLERK

Will Jones Found Ralph Larimer With Wife and Shot Him.

Fort Scott, Kas., March 24.—Believing that his home had been ruined and his wife's love stolen, Will Jones shot and fatally injured Ralph Larimer, a young clothing salesman at the Liepman store, last night at 8:30 o'clock. The shooting occurred at Wall street and Scott avenue, one of the principal business corners of the city, and caused a sensation here, as both victim and assailant are well known. The wife of the slayer comes from one of the oldest families in this city, her father, Col. Nute Ury, for several years having held a position in the government service at Muskogee, Ok.

Mrs. Jones had left a picture show but a few minutes prior to the shooting, and had walked for only a block in company with Larimer, when the husband, who had followed them, without giving a chance for explanations, fired three shots, two of which struck Larimer. One bullet struck Larimer's left breast and penetrated the heart, causing death ten minutes later; the other struck the right leg below the knee.

Jones escaped, but was captured by Deputy Sheriff George Cowan a few minutes later in his home. He did not know until placed in jail that he had committed murder and was ignorant of the identity of the victim. The wife now insists Larimer had forced his attentions upon her after she had repeatedly told him that she was married and that her husband was waiting for her. The husband says, however, that they were walking arm in arm during the time he followed them and that she left him early in the evening.

The coroner's jury held that Larimer came to his death by a gunshot wound at the hands of Jones, and the latter will be held for murder in the first degree. The body of the dead man was taken to his former home at Galena this afternoon for burial.

NOW FIGHT ALONE

SYMPATHETIC STRIKERS RETURN TO THEIR WORK IN PHILADELPHIA.

CAR MEN TO PLAY A LONE HAND

Said That 30,000 "Sympathizers" Went Back to Their Jobs Yesterday —Closed Shop Proposition Is Rejected.

Philadelphia, Pa., March 24.—The striking car men have been left to shift for themselves by the State Federation of Labor and local unions that maintained a sympathy strike for two weeks.

There will be no state-wide strike, and the general strike here is over. More than 30,000 men returned to work yesterday. It required all the influence C. O. Pratt could exert to keep the car men intact.

Last afternoon the car men met to consider the proposals submitted by Mr. Erale Tuesday night. Pratt asked for a vote. When the slips were counted nearly all of the 1600 men in the meeting were on record as favoring a continuance of the strike.

Despite Pratt's promise to the men of continued contributions, the unions that have been contributing are getting tired of the drain.

The directors of the Rapid Transit company said that, while they want to be fair with the men in the matter of wages and hours, they will not consent to a settlement which includes a closed-shop proposition.

A BRAKEMAN SLAIN

HE RETURNED HOME UNEXPECTEDLY AND WAS SHOT DEAD IN HIS TRACKS.

A CALLER ON WIFE DID CHOOTING

"Howdy, Mr. Gill," Says Kaw City Affinity as He Opens Door to Home-Coming Husband. Then Shoots Him to Death.

Kansas City, Mo., March 21.—Nathan A. Gill, a brakeman, employed by the Kansas City Southern railroad, was shot and killed in his home, No. 2403 North Tremont street, Kansas City, Kas., Sunday morning by Jesse Brody.

Brody was visiting Gill's wife. Gill was killed with his own revolver, which he had left his wife for her protection.

Gill's run was between this city and and Pittsburg, Kas. When he went out Saturday night he was not expected to return until Monday. He doubled back at Pittsburg, however, and returned Sunday morning.

He went to the rear door of his cottage and knocked. The upper part of the door is glass and throught it Gill saw a man dressing in the bedroom. In it was a revolver.

When Mrs. Gill heard her husband's knock she started to open the door. "Howdy, Mr. Gill," said Brody, and fired.

The bullet struck Gill in the heart. He fell just inside the doorway. The murderer stepped over the body and escaped.

Brody has a wife and four children. He lives at No. 1903 East Eleventh street, Kansas City, Mo.

SMASH EGG TRUST

NEW HEN LAYS SO FAST SHE HAS NO TIME TO SET, SAYS A CLAYTON WOMAN.

CANNOT PERPETRATE THE BREED

Mrs. John Osborn Declares Record Is Egg a Day Each Without a Miss —Peers of Poultry Family as Egg Producers.

St. Louis, Mo., March 24.—Mrs. John Osborne, of Clayton, has joined the ranks of the foes of high prices as the woman egg trust buster.

After eight years' research, she says she originated a breed of chickens guaranteed to produce eggs every day in the year.

The only trouble with the new variety, she says, is that the hens are so busy laying eggs they forget to set and perpetuate their breed. They are a mixture of Rhode Island Reds, White Leghorns and Blue Andalusians.

Mrs. Osborne grows enthusiastic as she describes the new products of the chicken world in this fashion:

Talk about your egg machines! They sink into oblivion in comparison to the New Osborns. They are the peers of the poultry family as egg producers.

"They have had no time to go to poultry shows and have their toenails manicured, feathers powdered, and their combs bathed in vinegar to enhance their beauty. They lay eggs every day whether they have pretty prize ribbons fluttering from their coops or not."

With a few hens, each laying one egg every day, it is not necessary for city residents to study "Back to the Farm" literature in their dreams of how to return to the good old times when "ham and ——" was a part of the daily breakfast menu, in the opinion of Mrs. Osborne.

A small city lot and very little feed and care is all that is necessary to produce enough eggs for each family to break the egg trust, if the new breed of chickens lives up to her statements.

poses no new officers, except the secretary and his assistant, and calls for no new appropriation aside from the salaries of the secretaries. It will provide a number of efficiencies, said Senator Owen, by preventing duplication.

A commercial nation, he said, "should not be unmindful of the commercial value of the saving of all life and efficiency possible, which is worth $3,000,000,000 per annum. A humane nation will not fail to act when it is known we could save the lives of 600,000 of our people annually, prevent the sickness of 3,000,000 of people per annum, who now suffer from preventable disease."

The bill, he said, was in accordance with the earnest repeated desires of the American Medical association, which he declared was "probably the largest and most honorable association of physicians and surgeons in the whole world."

Senator Owen quoted numerous statistics in proof of the arguments which he advanced as to the importance of the work that the department would be called on to do. He expressed the hope that action would be taken on the matter at the present session.

Pastor Brooklyn Tabernacle.

Palm Sunday the Lost Opportunity

Text, "If thou hadst known, even thou, at least in this thy day, the things which belong unto thy peace! But now they are hid from thine eyes."

Correspondence of the Democrat-Sentinel.

Allentown, Pa., March 20.—Pastor Russell, of the Brooklyn Tabernacle, delivered the following sermon here today: Little did the Jews understand the momentous importance to them of the event which Christians commemorate on Palm Sunday. It will be remembered that the incident occurred at the close of our Lord's ministry—three and a half years after his baptism at Jordan and five days before his crucifixion. The Jewish Sabbath had been spent in rest at Bethany, Lazarus whom Jesus awakened from the sleep of death, with his sisters Mary and Martha, prepared for Jesus a banquet, and when the Sabbath closed the supper was eaten. It was at that time that Mary brought forth the box of perfume, spikenard very valuable, and therewith anointed our Lord's head and feet. It was the same occasion on which Judas, in a wrong spirit had murmured against this expression of her loving devotion; that it was a waste; that preferably the money should have been given to the poor. It was then that the Master defended Mary and announced that the anointing was for his burial (which occurred later the same week), and suggested to the disciples, "The poor ye have always with you. And when soever ye will ye do them good; but me ye have not always."

The next morning, the first day of the week, corresponding to our Sunday, Jesus made ready for his triumphal entry into the city of Jerusalem as the Jewish king, according to the custom of the Jewish kings riding upon an ass and hailed and acclaimed by the populace. The incident had been foretold by the Prophet Zechariah in great detail, saying, "Rejoice greatly, O daughter of Zion; shout, O daughter of Jerusalem; behold, thy king cometh unto thee; he is just and having salvation; lowly, and riding upon an ass" (Zechariah ix, 9).

Prophecy Must Be Fulfilled.

When the apostles had brought the ass and Jesus sat thereon, the large concourse of people (which had come from Jerusalem to see Jesus because of his awakening of Lazarus) shouted aloud. They were filled with enthusiasm and, after the manner of the time, some broke off palm branches for the ass to step upon; others laid their garments in the way and thus formed, as it were, a carpet in the road leading to Jerusalem near by. The shout of the people was just as the prophet had declared. They hailed Jesus as the promised Son of David, the Messiah long waited for. On previous occasions, when they sought to make Jesus a king, after witnessing his marvelous works, he withdrew himself from them, to wait for their ardor to cool, knowing that the Father's time was not yet due. But now he knew that his hour was come and hence, instead of hindering he helped on with the enthusiasm by sending for the ass, etc. Prominent sectarian Jews present, although unable to account for the miracle, were unprepared to think of Jesus as the true Messiah, or anything short of an imposter in that role. When these heard the multitude shouting and addressing Jesus as the Messiah they were offended and sent word to Jesus that he should restrain the ignorant people who were thus acclaiming him.

But instead of forbidding the ovation Jesus intimated that it was the proper thing, that because the Prophet Zechariah (ix, 9) said, "Shout, O daughter of Jerusalem!" therefore there must be a shout. If the people had not shouted, rather than have the prophecy go unfulfilled, Jesus said the very stones would have cried out.

En route to Jerusalem Jesus halted the ass and the procession at the top of the Mount of Olives, and overlooking the Holy City, wept while he pronounced his sentence upon it—Unworthy! Unappreciative! As the evangelist declares, "Israel knew not the time of her visitation." The time for Israel to receive the king had come and they were not only ignorant of the matter collectively, but they were not in the heart condition to understand or appreciate. Jesus cried, "O Jerusalem, Jerusalem, thou that killest the prophets, and stonest them which are sent unto thee, how often would I have gathered thy children together, even as a hen gathered her chickens under her wings, and ye would not!" (Matthew xxiii, 37). For three and a half years he and his faithful apostles had been declaring that the kingdom of God was at hand; that the people should repent and believe the good message. And even six months in advance of this John the Baptist and his disciples had similarly preached.

After those four years of faithful preaching throughout the length and breadth of Palestine, the nation was apparently as unprepared for Jesus as at the first. Hence our Lord's following words, "Therefore I say unto you, Your house is left unto you desolate! Ye shall see me no more until that day when ye shall say—Blessed is he that cometh in the name of the Lord!" That day has not yet come. Meanwhile the Jewish nation was here cast off from fellowship with God, as the prophet declares, "Because they knew not the time of their visitation."

Israel has been outcast from national favor for more than eighteen centuries. Thank God the day is near at hand, when, at the second coming of Messiah, his kingdom shall be turned over to them. And then, as he declares, they will be glad to say, "Blessed is he that cometh in the name of the Lord." The long centuries of persecution and separation from God's favor will have brought that people to a humbler condition of heart, where they will be glad to receive of divine grace upon divine terms. To this great event St. Paul refers us in Romans xi, 27-34.

Although God foreknew all that had happened the offer of the kingdom to Israel was just as bona-fide, just as genuine, as though he had not known it. God always does his part! Whatever failure there is in any matter of contract belongs to humanity.

If thus we have before our minds the origin of Palm Sunday and what it signified as the climax of the test of natural Israel in respect to Messiah, we are prepared to go further and to note that in God's providence there is a similar test for us Christians.

"Enemies for Your Sakes."

St. John emphasized particularly the fact that the rejection of the Jewish nation, because of their rejection of Messiah, did not apply to all the individuals of that nation. As the Prophet Isaiah had foretold (Romans x, 27-33) there was a small, faithful section or "remnant." This remnant accepted Christ and were by him accepted and became the nucleus or foundation of Spiritual Israel on the Day of Pentecost. Thus we read, "He came unto his own (nation) and his own received him not (as a nation); but to as many as received him, to them gave he liberty (privilege) to become sons of God, even to them that believed on his name; which were begotten not of blood, nor of the will of the flesh, nor of the will of man, but of God"—at Pentecost (John i, 11-13).

Thus so far as the spiritual part of God's great promise to Abraham is concerned it has passed from the Jewish nation: but there still remains for them a glorious earthly portion, to which they will be introduced at our Lord's second coming. Then their sins will be cancelled, and as a people the Hebrews will return to Divine favor and will inherit the earthly features of the promise made to their fathers. Then, through them, God's blessing will be extended to all nations and peoples under Israel's New Covenant, which will then become operative at the hands of their great Mediator—the Christ, the Messiah in glory. But by that time the election of the saints of this Gospel Age will be complete and the Messiah in glory will include Jesus the Head and the Church his Body—joint heirs with him in his kingdom—joint heirs with him in the spiritual features of the great Abrahamic promise (Galatians iii. 29).

All this is clearly stated by the Apostle in Romans xi, 25-32. But somehow our eyes of understanding as Christians have been holden so that, until of late, we have not seen these lengths and breadths, these heights and depths of Divine Love and Wisdom and arrangement. The fact that we now see these things is a corroborative evidence that they are nigh at hand. Just so it was at our Lord's first advent. Many things pertaining to that time were completely hidden until the time of their fulfillment came, and then only the "Wise Virgins" were so blessed, so assisted, that they trimmed their lamps effectively and were enabled to see these beauties in the Divine Plan.

The Time of Our Visitation.

Apparently very few of God's people, until recently, have noted the fact that Spiritual Israel has had a parallel history to that of Natural Israel. Few have seen that these are dealt with all through the Scriptures as type and antitype. Few have noticed that from the death of Jacob to the death of Jesus finds is exact parallel of 1,845½ years between the death of Jesus and our day. Few have noticed that in both cases there is a nominal and a real Israel. The nominal Jewish system was tried and all but the "Israelites indeed" failed. Likewise will be the experience of Spiritual Israel. The nominal Christian systems will be tried, and all will fail except the spirit-begotten and faithful. As only a remnant or small number were found in the proper condition at the first advent, so the Scriptures clearly intimate that only a small number will be found sufficiently saintly and zealous and loyal to the Lord and the principles of his Truth in the end of this age, to graduate with first honors.

As there was a special period of testing and trying at the close of the Jewish Age, lasting for forty years, so, the Scriptures clearly indicate, there is a special sifting and testing due to come to Christendom during the closing forty years of this Gospel Age before the inauguration of the glorious Millennial blessings. As the trials and tests came upon the Jews in a subtle manner, to test their faith and obedience, so even more subtlety must we expect will be connected with the trials and testings in the harvest time of this Gospel age. Of this time the Lord through the prophet said, "Who may abide the day of his presence, and who shall stand when he appeareth? for he is like a refiner's fire and like fullers' soap; and he shall sit as a refiner and purifier of silver; and he shall purify the sons of Levi, and purge them as gold and silver, that they may offer unto the Lord acceptable sacrifices" (Malachi iii, 2,3).

Both Houses of Israel.

Natural and spiritual Israel are contrasted. The Lord through the prophet foretold that Messiah would be "for a stone of stumbling and for a rock of offense for both the houses of Israel"—to natural Israel and to spiritual Israel. We have seen how the first house tumbled on that Palm Sunday, celebrated today. They stumbled "because they knew not the time of their visitation," they did not know that the time had come for the establishment of the kingdom; hence they were not alert to their privileges and failed to be in the proper condition of heart to receive the blessings. Or we might state the matter reversely and say that those who did not know and accept the Messiah were those whose heart were not in the right condition, else they would not have been left in darkness (I Thess. v, 4.)

Many things indicate to us now that we are living in a time corresponding to that Palm Sunday! Many things imply that christendom is undergoing its great test and that only the fully consecrated of heart and life will be accepted of the Lord as His jewels, and be granted a share with the Lord in His kingdom. Many things imply that we are now in the time when the true people of God are being divided into two classes, as pictured for us by our Lord in the parable of the wise and foolish virgins. Aas only the wise virgins were prepared to enter into the marriage, so only the consecrated ones, the polished jewels of the Lord will be accepted as fit for the kingdom and be granted a share in the glorious resurrection change which will precede the great time of trouble, in which the foolish virgin class, although not of the world, will participate with the world.

True that great time of trouble will usher in the glorious Millennial dispensation, in which the church in glory with the Great Redeemer, will pour out upon all mankind the wonderful restitution blessings which God has promised by the mouth of all the holy prophets (Acts iii, 19-23.) True the foolish virgins may subsequently get the oil and subsequently have a glorious future, but they will lose the choice place of Divine favor and blessing. They can not be of the bride class, but will receive the blessings under the figure of "the virgins her companions that follow her" (Psalm xiv, 14.)

It is in order for all of God's people who now get awake from the slumber of worldliness, which has long stupefied them, to join hearts and voices in a great shout—the shout that the kingdom is at hand! The shout of hosanna to the Son of David! And that the time is at hand for the fiulfillment of the passage "Gather together my saints unto me, saith the Lord! those that have made a covenant with me by sacrifice. They shall be mine, saith the Lord, in that day when I come to make up my jewels" (individually) (Malachi iii, 17.)

"See That Ye Refuse Not Him."

As the Jewish nation was not ready to receive Jesus as its king, on that first Palm Sunday, neither is christendom now ready to receive Him at His second advent. As it was only the "Israelites indeed," in whom was no guile, that then knew the voice of the Shepherd, so it will be here an individual matter. The Laodicean period of the church's history is upon us (Revelations iii, 17.) The nominalism of our day is fully portrayed by our Lord's words. Christendom boasts that she is rich and increased in goods and has need of nothing; and knows not that she is poor and miserable and blind and naked. The Lord now stands at the door and knocks. He offers Himself to the "Israelites indeed." Ours is Palm Sunday in the highest sense of all. How are we receiving the great blessings which betoken the parousia of the Master? Do we hear His knocks? Have we opened our hearts? Are we searching His Word and listening to His voice and seeking to do His will in all things? To all such very shortly, we believe, will come the greater and fuller Pentecostia blessing, the resurrection "change" from the glory of character merely to the glory of person as well, when we shall see our Redeemer as He is, and share His glory. As St. Paul says, "See that ye reject not him that speaketh from heaven!" Greater light, greater privilege, greater blessing every way are ours than were those enjoyed by the Jews at our Lord's first advent. These privileges and blessings are our tests. Let us be faithful. Let us present our bodies living sacrifices and with renewed zeal seek to glorify our Lord in our bodies and our spirits, which are His (I Cor. vi, 20.)

Those who have the eyes to see and the ears to appreciate the voice now speaking from heaven should be aler to hail Him Lord of all, to accept Him as their Redeemer and king and voluntarily to accept Him as their Redeemer and King and voluntarily to present themselves to Him and His service, not waiting for the time when He shall reveal Himself in power and great glory to the world in general. The Lord is now looking for saints, for overcomers, valient, faithful, persevering, and thoroughly devoted to Him and to His cause of righteousness, and thoroughly opposed to sin and especially active in overcoming its domination in their own hearts, in their own minds, in their own bodies. Such the Master pictures as His joint heirs, priestly kings, sitting with Himself in His throne of glory and world dominion.

DEMOCRAT CHOSEN

ELECTED IN 14TH MASSACHUSETTS DISTRICT BY PLURALITY OF 5,840.

IT WAS TRULY A GREAT VICTORY

Two Years Ago Republican Was Elected By a Plurality of 14,250 — Carry the News to Aldrich, Payne and "Uncle Joe."

Brockton, Mass., March 23.—The political weather cock turned democratward in Massachusetts yesterday, when the old colony, one of the republican strongholds of the state, placed Eugene N. Foss, of Boston, one of the country's leading exponents of reciprocity with Canada, in the congressional seat of the late William C. Lovering.

Mr. Foss accomplished what was considered almost a political miracle, turning a republican plurality of 14,250 into a democratic victory of 3,840.

The vote yesterday was: Eugene N. Foss, of Boston, (democrat), 14,980; William R. Buchanan, of Brockton (republican), 9,340.

It was the first contest to be decided by the voters since the Payne-Aldrich tariff bill became operative, and had a peculiar interest on that account.

Mr. Foss, who has figured in several campigns, first as a republican and latterly as a democrat, with moderate protectionist leanings, is well known in the northwestern states and in Canada as a champion of Canadian reciprocity, an issue which led him to leave the republican party last year and become the democratic candidate for lieutenant governor. He failed by only 8,000 votes to carry the state at that time. Another subject which was discussed in the campaign was the high cost of living.

The remarkable shift of votes yesterday is difficult to analyze. The republican leaders admit that the party in the district was divided, partly due to the failure of Judge Robert O. Harris to win the nomination in the primaries. Judge Harris took no part in the campaign, but many of his friends, together with other dissatisfied republicans, worked to defeat Buchanan.

Mr. Buchanan had also to meet the attack that he was not a strong party man, his opponents pointing to the fact that he was formerly the secretary of Gov. W. L. Douglass, a democrat.

The Brockton man was further handicapped by a theory that Mr. Foss was as good a republican as himself, and it is true that Mr. Foss' prominence in the republican party, previous to last year, brought many supporters to his standard.

Twenty-five thousand ballots were cast yesterday, which is about four-fifths of the average vote in the three past congressional elections.

Congressman-elect Foss is a prominent manufacturer, banker and capitalist of Boston. He had been twice defeated for congress in the Eleventh district. He is a brother of Congressman Foss of Illinois.

Mr. Buchanan is the publisher of the Brockton Times.

STOPPED BY MAYOR

Prof. Griffieth, Hypnotist, Ordered to Awaken Victim.

(From Wednesday's Daily.)

Mayor J. L. Babcock at 2 o'clock this afternoon ordered Prof. Griffeth, the hypnotist, to awaken Samuel Martin, the man who was hypnotized last night and put to sleep in the front window of the Callies Awning and Mattress company's store, on East Third street, because complaint had been made to him by a lady passing on the street.

The mayor stated that no attempt would be made to stop the work of the hypnotist at the opera house, but that it could not be done in plain view of the public.

NOTED BOND SUIT

ATTORNEY GENERAL, AUDITOR AND SECRETARY OF STATE TO BE MANDAMUSED.

EQUALIZING BODY HIT BY COURT

Governor and Treasurer Escape Censure for Tax Valuations—New Developments In Macon County Bond Case.

St. Louis, Mo., March 22.—Attorney General Elliott W. Major was full of fight when informed by a correspondent yesterday afternoon that Judge Elmer B. Adams, of the United States circuit court of appeals, of St. Louis, had handed down an opinion charging the attorney general, State Auditor John P. Gordon and Secretary of State Cornelius Roach with being in a conspiracy to prevent the collection of a judgment against Macon county.

The three officials mentioned, with Governor Hadley and State Treasurer James Cowgill, compose the state board of equalization.

The suit against the board acted on by Judge Adams was instituted about a year ago by the attorneys of Arthur Huidekoper, of Pennsylvania, on a judgment Huidekoper holds against Macon county for some $263,000 in bonds issued for a railroad that was never built.

The object of the suit is to compel the equalization board to increase the valuation of Macon county property to an extent that would result in a surplus in the local revenue fund sufficient to eventually meet the judgment.

Judge David P. Dyer decided in the United States circuit court at Hannibal, where the suit was brought, that it was not within the jurisdiction of the federal tribunal to grant a writ of mandamus prayed for against the state officers.

Judge Adams yesterday reversed Judge Dyer's ruling and sent the case back to him, with directions to issue the writ.

Attorney General Major said he would take the case to the United States supreme court on a writ of certiorari. He declared his intention to fight to the last ditch for the right of the state to regulate its own affairs without interference from the federal courts.

Governor Hadley and Treasurer Cowherd are not designated "conspirators" by Judge Adams because they voted last year to have real estate and personal property assessed at its actual cash value, which the statutes of Missouri have required for many years shall be done, but which never have been enforced because of almost state-wide protests.

Soon after the equalization board met Treasurer Cowgill introduced a resolution providing that all classes of real estate and personal property should be valued at 50 per cent of its cash value. Governor Hadley said he was willing to support a resolution to assess such property at its actual cash value. Treasurer Cowgill agreed to the amendment. Both were defeated, however, by the votes of the other three officials.

When the question of fixing the valuation of Macon county property was before the board a delegation from that county went to Jefferson City and protested against the railroad bond indebtedness being forced on them by an increase in taxes over an amount necessary to pay the county's expenses. A majority of the board heeded the protest. The application for the mandamus writ was then filed by Huidekoper in the federal court.

Princess de Sagan

Princess de Sagan, formerly Anna Gould, of New York, who has added another debt-ridden title to her name. By the death of her father-in-law her husband, Prince de Sagan, has fallen heir to the ancient principality of Sagan in Prussia, which carries with it several titles and the prefix, "Serene Highness." But she will be unable to enjoy her new domain until she has satisfied the swarm of creditors, who have seized the property until the many long standing debts are paid. Her marriage to Count Boni cost her more than $12,000,000, and she is still paying off the debts incurred by the extravagant and pleasure loving count. To add insult to injury, the French courts have decided that she must continue to pay $5600 a year to the parents of Count Boni de Castellane in accordance with an agreement she made when she married the count. After her divorce from Boni she ceased paying this annuity, but her former husband brought suit and came off victorious. She was also compelled to pay $13,000, the amount due since the last payment.

IN J. P. COLLINS MEMORY

Touching Tribute to Late Banker By F. L. Wright.

The following tribute to J. P. Collins, late cashier of the Bank of Smithton, written by F. L. Wright, appears in today's issue of the Times:

The loss to this community in the death of J. P. Collins can not be estimated. Taken away in the prime of his usefulness, he is, and will be, greatly missed, and many a tear has fallen and many a kind word spoken in heartfelt sympathy with the bereaved family in their great and sad bereavement. Not only their loss but ours—a loss to his friends—a loss to his church and a loss to the whole community. I knew him quite intimately for over twenty years, and my knowledge of him is such that I have not words sufficient to fully express my high appreciation of his noble character. He had an unusually keen sense of honor and his word was as good as his bond.

Personally, as one of his associates in business, I am greatly grieved by his death. To be his friend and to call him my friend was a great pleasure. His was one of those choice congenial spirits with whom it was a pleasure to associate—one who was generous and kind to all—not strongly aggressive but quiet and agreeable and always on the side of right and justice. With malice towards none and charity to all his heart went out in helpful sympathy to those in distress or sorrow.

As a neighbor he was neighborly—as a friend, faithful and true—as a Christian, steadfast—as a citizen, loyal, and to his church and to his family devoted. To know him was to respect him—to become intimately acquainted with him was to admire and love him. The flowers we strewed upon his grave will soon lose their fragrance and wither away, but the influence of his true Christian character will live on and be reflected in the lives of many others, and I for one feel that life has been made brighter, happier and more useful by having known him.—F. L. Wright.

Improve Ice Plant.

Columbia, Mo., March 24.—About $10,000 will be spent in improving the ice plant in Columbia. This will make a daily output of from 25 to 27 tons. The capacity of the cold storage plant is to be doubled and a new building will be erected for that department.

BE NO INSURGENTS

ON THE NEW RULES' COMMITTEE OF THE HOUSE OF REPRESENTATIVES.

ALLEGED REBELS ARE SATISFIED

Desire for Representation Disavowed By Members of Dissenting Branch—Republican Caucus Be Held Tonight.

Washington, D. C., March 23.—Through the maze of speculation regarding the probable personnel of the enlaged rules committee of the house was developed yesterday a slate for republican membership in that body.

Several conferences were held, and as a result, it is understood, the members of the committee may be selected on a geographical basis. The tentative slate is divided into groups, out of which the leaders expect one each to be chosen. The groups follow:

Dalzell, of Pennsylvania; Smith, of Iowa; McCall or Lawrence, of Massachusetts, or J. Sloat Fassett, New York; Boutell, of Illinois, or Longworth, of Ohio; Young, of Michigan, or Stevens, of Minnesota; Smith, of California, or Hawley, of Oregon, or Howell, of Utah.

From this slate the six republican members of the committee of ten may be selected at the republican caucus tonight.

The list of probable selections does not include a single insurgent republican.

Republican leaders take the position that only by a rock-ribbed, stalwart, regular republican membership can the rules' committee transact any really effective business.

They contend the insurgents made a mistake in fixing the membership of the committee at ten instead of some odd number; that it plainly made impossible the inclusion of any insurgent republican.

It was said by the regular republicans that to permit the inclusion of an insurgent as one of the six would give him as great a power as the speaker has enjoyed in that he would doubtless consult his insurgent colleagues on every move, and that the regulars would have to agree with him or else leave the committee subject to a tie vote—5 to 5—in case the insurgent chose to vote with the four democrats, who are to be selected in caucus Thursday night.

Most of the insurgents disavow any desire for specific representation of their branch of the party.

Representative Hayes, of California, one of the leaders of the insurgents, is accredited by the regulars with endeavoring to bring about insurgent representation, but the move has taken no definite shape.

Representative Haugen, of Iowa, the insurgent who has drifted a resolution proposing the committee of committees, said yesterday that he finally decided to introduce that measure at the first favorable opportunity. He has talked over the proposition with some of his insurgent colleagues.

Ten insurgents yesterday signed the call for the republican caucus. Among these were Miller, Volsted, Stevenerson and Pickell.

Several declined to sign, although they probably will attend the caucus. These were Murdock, Norris, Lenroot, Lindburgh and Cooper.

A member of the house organization said the organization desired it to be understood that it was taking no part in the selection of the committee.

PACKER WITNESS FRANK

Says, "We Figure the Carcass and Get All We Can for It."

Washington, March 22.—Gen. Michael Ryan, president of the Cincinnati Abattoir company, occupied the stand during the session of the senate high cost of living committee last afternoon.

Questioned as to how his prices were fixed, he said the cost of every carcass was figured on, and then they got all they could for it.

General Ryan was the only meat packer who, so far, has admitted that the recent meat boycott hurt his company. He acknowledged that his company lost several thousand dollars a week while the boycott was in progress.

He attributed the higher cost of meat to the growing prosperity of the country, saying that more people are eating meat now than in former years.

Court Makes Change.

BUILDING BOOM ON

THIS IS THE REPORT SENT OUT FROM ALL SECTIONS OF GRAND OLD MISSOURI.

IS NOT CONFINED TO THE CITIES

The Towns and Hamlets Are Also in the Saddle and Pushing Things —Some of the Improvements So Far Reported.

The hog market has not got a corner on breaking records in Missouri by any means this year, as other records are going to be smashed all over the state. This is especially true in regard to building operations.

There is, apparently, a substantial building boom under way, as reports indicate that an unusual amount of work of this character is to be done during the next few months.

In addition to many big undertakings that have been planned in the way of public improvements, there will probably be more business buildings and residences erected in the small towns and throughout the country than during any previous year. The indications are that it will be an exceptionally busy season for carpenters, material men and laborers.

Here are a few improvements that will be made in Missouri this year:

Chillicothe—Work is progressing nicely on the new $30,000 building which is being erected by Seiser & Pfeifer. It is to be a modern store and office building. The prospects are excellent for much building work in Chillicothe this season.

Kennett—A new $11,220 jail is to be built in Kennett this year. The old jail property was sold for $11,385, so the county is still ahead of the game.

Walnut Grove—A new $25,000 school building is being built in Walnut Grove to replace the school house which was destroyed by fire last February. It is expected to have the building ready for use by next fall.

Gallatin—Plans have been completed by contractors for the new high school. Work will begin at the close of school in order to complete the building this summer. Practically all of the material for the building has been shipped in already.

Albany—The first silo to be built in Gentry county will be built by Charles E. Chenoweth on his farm east of here. There is considerable interest being manifested in silos in this county and it is thought that a number of farmers will follow Mr. Chenoweth's example in the near future.

Sikeston—The Commercial hotel will be rebuilt this spring by J. W. Marshall. The new building will be three stories high and modern in every respect. It is expected to cost about $10,000. The work will be pushed as rapidly as possible. Plans are being made for a number of new residences here this season.

Carthage—Work on the new Missouri Pacific passenger and freight depot will be begun soon. It is an improvement that has been needed here for some time.

Kirksville—A small-sized building boom is in progress in Kirksville, as an unusually large number of substantial buildings and residences are being built and plans are being made for several more. One of the most important buildings will be one to be constructed by a grocery company on North Main street. The building will be three stories high, with a basement, 68x125 feet.

Rock Port—A contract has been let by the bulding committee of the First Lutheran church for the erection of a modern church building. Work will begin at once, as it is expected that the building will be completed by July 1.

Misses Rosa and Maggie Kemp were visitors in Sedalia Friday.

Mrs. Clay Jones and Miss Lillie spent Monday evening with Mrs. J. L. Scott.

Miss Bessie Grew returned to Sedalia Sunday, after visiting her mother here.

To Be Married Today.

(From Sunday's Daily)

J. Bryan Whitfield, a widely known farmer and stockman living near Lamonte, and Miss Cordie Stevens, of Clarksburg, Mo., will be married by the Rev. David Roberts at the latter's home, 114 East Jefferson street, at 6 o'clock this morning. The bridal couple will go to Kansas City for a few days' visit, after which they will return to Lamonte to live.

Died From a Carbuncle.

From Wednesday's Daily.)

Mrs. Jesse Karrick, aged about 55, wife of a well known farmer and stockman, living four miles southwest of Longwood, died at her home this morning, after a brief illness with a carbuncle. She is survived by her husband and a number of children.

Funeral services will be conducted at Longwood at 11 o'clock tomorrow morning. Burial will be there.

CASE OF DR. HYDE

DEPOSITIONS WERE TAKEN IN THE SLANDER SUIT IN KANSAS CITY.

FEVER CAME TO 2 IN SEVEN DAYS

Misses Swope and Fox Developed Typnoid Week After Meeting Hyde—This Was the Testimony Yesterday.

Kansas City, Mo., March 22.—Seven days after Miss Lucy Lee Swope was met by Dr. B. C. Hyde in New York, upon her return from Paris December 15, she was stricken with typhoid fever.

In the same number of days after Miss Mildred Fox visited the Swope home she, too, developed typhoid.

This coincidence developed yesterday in the taking of depositions in Dr. Hyde's slander suit here.

Miss Elinor Minor, a girl with whom Miss Swope resided after her return home, testified regarding her friend's illness. Miss Fox was also on the stand.

Dr. Elmer Twyman testified that Chrisman Swope was suffering from an aggravated form of typhoid the day he died. The physician made a blood test which, he said, revealed this fact.

Chassing Hatred Chase Jordan, the "yarb" man, said he would probably appear in the North city court in Kansas City, Kas., to answer the charge of practicing medicine without a license. He did not appear.

The "doctor" says he will carry the case to the supreme court, if necessary, as he believed that inasmuch as he practiced medicine for seven years before the present medical requirements were made he is entitled to continue his work.

A ST. PATRICK SOCIAL

Was Given by Mrs. C. E. Whitney and Niece Friday Night.

(From Sunday's Daily.)

The Ladies' Aid society of the Central Presbyterian church gave a delightful and well attended social at the home of Mrs. C. E. Whitney, on South Vermont avenue, Friday night, almost one hundred church members and friends attending.

Mrs. Whitney was ably assisted in entertaining by her charming niece, Miss Mabel Clark.

The home was artistically decorated with shamrocks and green adornments, the event being in honor of St. Patrick. A feature of the evening's amusement was a contest, named "Assinity," which afforded unlimited amusement for all.

At a late hour the guests were served with sandwiches, pickles, cake and coffee, after which the guests departed for their homes, voting Mrs. Whitney and Miss Clark charming entertainers.

LINCOLN ITEMS.

Lincoln, Mo., March 22

James A. Benz made a business trip to Osage, Okla., this week.

But few people in this part of the state realize that we have had but one rain since the first Saturday in December.

Ben Bristow and Jas. Scott are the names of the two new barbers in our town.

Clair McMurdo is paper hanging, painting, decorating and house cleaning at Jack Hunt's, seven miles north west of here, this week.

Joe Summers is moving his house this week, which he recently purchased of Dr. Jones.

Brown's comedy show is booked for the week here. The attendance was very large last night.

Farmers are quite busy here sowing oats and plowing for corn.

R. R. Gilbert, editor of the Lincoln Independent, will move his press and fixtures into a building just opposite his present site.

The residence of Dr. Stratton near the depot is nearing completion.

BUILD STATE ROAD

LEXINGTON, MO., WILL VOTE ON ROCK HIGHWAY BONDS FRIDAY, MARCH 25.

MEANS MUCH FOR THAT SECTION

The Lean Will Mean a Direct Macadam Route From Kansas City and May Become Part of a Cross-Missouri Path.

Lexington, Mo., March 23.—The fate of a plan for a direct Kansas City-Lexington rock road and perhaps the route of the first great highway across Missouri will be determined by a bond election of the Lexington Special Road district of Lafayette county next Friday.

To the Lexington district, which is eight files square, the election means a great deal more than that. It is purposed to issue $120,000 of bonds under the act of the last legislature, which gives special road districts the same bond-issuing powers as school districts. The act pledges the state to duplicate the amount out of the road fund. This fund of $240,000 would pave fifty or sixty miles of roads in the district—and the district commissioners promise that the construction shall start with the beginning of summer.

The friends of the movement, including three or four of local newspapers, have advocated the bonds in so vigorous and convincing a manner that little opposition is expected. But since a two-thirds majority is required to carry them, earnest appeals are being made for a full vote. There is no other issue in the election.

About the first construction work is to be done on an east and west "trunk line." This is of peculiar interest to the town of Wellington, eight miles west of Lexington. Wellington has heard of the benefits Lexington expects to receive and its public spirited citizens are already working to organize a similar district there.

The Wellington district, judging by the sentiment, would mean an immediate eight-mile extension of the east and west trunk line, which would bring it within five miles of Jackson county's rock road to Levasy. If Jackson brought its road to the county line, the gap would be shortened to about three and one-half miles, making, with that exception, a continuous 45 mile pike straight east from Kansas City.

In a zone that has been served only by the Lexington branch of the Missouri Pacific the proposed highway presents almost as many advantages as would a new railway.

Why are Lexington and the farmers and miners about it willing to assume the $120,000 debt and the consequent taxes?

In the last twenty years the property in the Lexington district has been taxed $120,000 for roads. Yet the money has been spent in such a manner that last week the postmaster general notified the postmaster there that unless the roads were put in better condition the rural routes would be abolished. In the same period about one million dollars has been spent in Lafayette county and there's not a mile of macadam in the county now. The country districts are practically issolated behind quagmires two or three months in winter. At the very time of the year when the prices of farm products are highest it has been impossible to take them to market because of impassable roads.

Assuming that the bonds can be sold at 4 per cent, the average tax a year to the average farm owner will be less than 7 cents an acre—$10.80 for a 160-acre farm—according to the commissioners' figures.

"Why," the farmers are saying, "the rural delivery alone is worth more than that to us."

The rate of taxation for the bonds would be not more than 45 cents on the assessed valuation, and the assessed value of farm land is less than one-fourth its actual value. Twenty dollars an acre is the average assessment, and it rarely is sold for less than $100. All the bonds would be redeemed at that rate within the legal term of twenty years.

Through regular channels the district will have an income of about $14,000 a year for maintenance and extensions. Heretofore it has been about $8,000 a year. This increase in funds implies no increase in the road tax. The organization of the district has made available for road improvement certain dramshop and other revenues, which were used for other purposes before.

The commissioners of the Lexington district, who were appointed by a board composed of the county judges, the city council and the mayor, are: Dr. G. W. Fredendahl, chairman; Oswald Winkler, a furniture manufacturer and dealer, and E. J. McGrew, general manager of the McGrew Coal Co. It is significant that McGrew, who represents probably the largest taxable interests in the district, is one of the leading advocates of the bonds.

Phillip M. Reed Seeks Divorce.

Rosie Reed, a notorious bawd, was made the defendant in a suit for divorce instituted by her husband, Phillip M. Reed, in circuit court late Monday. Reed accuses his wife of having deserted their children, of having given birth to a child more than a year after he had been confined in an insane asylum and, to cap the climax, that she had been an inmate of a bawdy house. A. L. Shortridge represents the plaintiff.

TEACHER SUICIDED

COMMITTED ACT AS PUPILS IN THEIR SEATS AWAITED HIS ARRIVAL.

CAUSED A PANIC IN THE SCHOOL

Had Knelt Before Members of Senior Class and Given Prayer for Death—Former Attempts Had Proved Futile.

Pine Bluff, Ark., March 22.—When the announcement of the suicide of Prof. R. T. Benton, principal of the Pine Bluff High school, was made yesterday at the school, a panic of hysteria on the part of hundreds of his pupils necessitated a dismissal of classes.

Several young ladies in the graduating class fainted.

Prof. Benton ended his life at his home in this city shortly after 7 o'clock, and the pupils were in their study rooms awaiting his arrival, when the announcement of his death was made.

He fired a bullet into his brain shortly after leaving the breakfast table. It developed after his death that he was under treatment for nervous trouble, and that he had attempted to commit suicide several times previously, but was prevented from doing so by the interference of his wife.

Last Thursday, while in the study room at the high school, and in the presence of the many members of the senior class, he knelt on the floor and prayed to God to end his life.

The dramatic incident was not revealed by his devoted pupils, who were requested by him to keep it a secret.

His actions at the school had been unusual for the last ten days, and the attending physician says that Prof. Benton was suffering from a nervous attack due to overwork.

He was 36 years old and was a native of Mount Sterling, Ky. He held the chair of Latin and Greek in Central university at Danville, Ky., for four years, where he was graduated in 1896. He succeeded Prof. J. H. Thach as principal of the high school here a year ago, having been vice principal for six years.

Prof. Benton was prominent in athletic circles in this state and was regarded as one of the best and most popular teachers in Arkansas. His wife was formerly Miss Allie Lee Fox, a member of a Pine Bluff family. She and two sons survive.

PRIZE IS $7,000 PURSE

Dr. B. F. Roller to Wrestle Zbysko in Kansas City Tonight.

Kansas City, Mo., March 22.—Dr. B. F. Roller, the Seattle wrestler, and Zbysko, the Pole will meet here this evening in a wrestling bout to a finish for a purse of $7,000.

Roller and Zbysko recently met here, the Pole agreeing to throw his opponent twice in sixty minutes. He failed, Roller proving the aggressor most of the time.

The Seattle doctor recently exhibited his prowess at Denver in a match with Raoul de Rouen, the French heavyweight wrestling champion, who has gained a reputation as the roughest man who ever stepped on a mat. Roller quickly calmed the Frenchman and was given the match after they had been wrestling, or rather, fighting, for fifteen minutes, for the second fall.

Strike Is General Over West.

Kansas City, Mo., March 21.—Union leather workers in all parts of the country with the exception of the east went out today. The strike was ordered by J. M. Baker, president of the United Brotherhood of Leather Workers. At St. Joseph, Springfield and Joplin, Mo., and Wichita, Kas., all the local union men responded.

Pittsburg, Pa., March 22.— Nine members of the city council of Pittsburg confessed today to the acceptance of bribes paid them for their votes in street vacation and bank ordinances. All were granted postponed sentences.

SHOWED HIS WIFE HOW

To Make Good Job of Suicide After She Failed.

Pittsburg, Pa., March 22.—Discouraged because his wife had tried suicide, and, though unsuccessful, had caused much talk among the neighbors, Frank Elder, a railroad conductor, yesterday tried suicide himself with success.

He took the bottle of acid which his wife had tried to drain two days ago and, going to a dancing pavilion near his home, drank the contents and was dead when found.

The husband had scolded his wife for making the attempt on her own life, and urged her to "make a good job of it" next time.

EN ROUTE TO MONTANA

Mr. and Mrs. Milton Parish When They Were Killed.

(From Wednesday's Daily.)

The man thought to be G. W. Blair, who was one of the forty-six people killed in the Rock Island wreck near Marshalltown, Ia., Monday morning, proved to be Milton Parish, a Pettis county farmer. Both Mr. Parish and his wife were killed in the wreck.

Their bodies left Marshalltown at 5 o'clock this morning and are expected to arrive here on Missouri Pacific train No. 38 at 9:10 o'clock tonight. Funeral arrangements will not be perfected until they arrive.

Parish and wife left Sedalia Sunday for Montana. They had been living on G. W. Blair's farm, six miles from Sedalia. Mr. Parish carried a bank book bearing Mr. Blair's name, which gave rise to the suspicion that Blair was killed.

MR. NEILL FORCES RAILROADS AND UNIONS INTO TENTATIVE AGREEMENT.

THE WORKERS WIN TWO POINTS

Compromise on Legislation Provided —Switchmen's Decision Due Today, Is the News From Chicago.

Chicago, Ill., March 22.—Through the diplomacy of Labor Commissioner Charles P. Neill, the strike cloud that has hovered over the western railroads for several days past has been partially dispelled. Though peace still hangs on a thread, it was announced last night, after a day of conferences that the situation looked hopeful and should be amicably settled, according to an agreement reached between the warring factions.

Railroad managers and representatives of the locomotive firemen yielded to the arguments of Dr. Neill and agreed to take up the discussion of the points at issue from a new standpoint.

It was agreed by W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen, and his committee, representing the men, and the general managers' committee, representing the forty-seven railroads affected, to settle the controversy in the following manner:

The question of seniority or the promotion of old-time firemen over new men and the question of representation by the union of firemen who have been promoted to be enginemen are to be compromised before any arbitration is attempted.

The demand of the men for an increase in wages of 12½ per cent is then to be submitted to arbitration under the Erdman act

In previous negotiations the railroads have agreed to arbitrate the wage question, but had declined to arbitrate the two other points on the ground that they were points of discipline and authority only.

It was learned that both sides were brought to an agreement to compromise through the insistence of Commissioner Neill that something had to be done quickly.

Mr. Neill informed both sides that mediation had been in progress since last Thursday and that apparently no progress had been made. He declared that unless action was taken within twenty-four hours he would return to Washington. The decision to compromise followed quickly

The general managers last night issued the following statement:

"The railroads have no statement to make other than that a settlement of the whole matter probably will be made today which will be satisfactory to both sides."

Mr. Carter said he had no comment to make.

The board of arbitration which will hear the wage dispute will, under the Erdman act, be composed of one member appointed by the firemen one appointed by the railroads and one selected by the chairman of the interstate commerce commission, the latter to act as judge.

The decision of the federal arbitration board on the demands of the switchmen's union for a wage increase will be announced this afternoon at 6 o'clock in Judge Grosscup's court room. The arbiters are C. S Gray, of the 'Frisco railroad. S. E Hebering, of the switchmen's union and S. S. Gregory, a local attorney, who is umpire. The men asked for 6 cents an hour increase.

DR. W. N. GRAHAM'S WILL

It Was Sustained in the Clay County Circuit Court.

(From Tuesday's Daily.)

Judge Louis Hoffman returned this afternoon from Liberty, Mo., where he was summoned as a witness in the suit to break the will of the late Dr. W. N. Graham.

The will was sustained, and, according to its terms, Dr. Graham's estate of something like $20,000 is to go to the First Baptist church here and the Excelsior Springs Baptist church.

CLAIM FAIR BRIDE

THE ENGAGEMENT OF MR. JACOB CHASNOFF IS FORMALLY ANNOUNCED.

HE'S TO WED BRIGHT BOSTON GIRL

No Date Fixed for the Ceremony, but It Is Expected to Take Place at the Home of the Bride-Elect Next June.

(From Tuesday's Daily.)

The Democrat-Sentinel is today permitted to announce the engagement of Mr. Jacob Chasnoff, son of Mr. and Mrs. M. Chasnoff, of this city, and Miss Julia Linenthal, of Boston, Mass.

While no date has been fixed for the wedding, it is the present plans to have it solemnized in June, at Boston.

Mr. Chasnoff, who is engaged in the practice of law in St. Louis, was in Sedalia Sunday, visiting his parents, going back to the Mound City Monday morning. His approaching wedding was learned of while he was here.

The engagement of Mr. Chasnoff and Miss Linenthal had its beginning while the young attorney was a student at Harvard. It was at Cambridge the young people met first, and a strong friendship immediately sprung up between them, resulting in a courtship which extended through the remainder of the college term and is to now culminate in their marriage.

Miss Linenthal visited in Sedalia last summer, a guest of Mr. and Mrs Chasnoff, leaving for her home on the same train that took her future husband to St. Louis to enter upon his life work.

Mr. Chasnoff was successful in his first step in his profession. He secured an office with the well known and pioneer firm of McDonald & Taylor, in the Third National bank building, both of whom are ex-judges and have a wide practice.

What cases Mr. Chasnoff has handled on his own account and for Judges McDonald and Taylor he has been successful in, and few young attorneys have accomplished as much in the same period of time.

Miss Linenthal is a pretty and accomplished Jewish girl, and comes of a highly esteemed family of Boston

WENT THRO' A TRESTLE

Engine and Mail Car Only—Balance of Train Saved by Engineer.

Fort Dodge, Ia., March 22.—The engine and mail car on northbound passenger train No. 3 of the Minneapolis and St. Louis railroad dropped through a blazing trestle near Humboldt today.

The whole train would likely have followed had not the engineer, James Murphy, discovered the fire in time to set the brakes. His quick work kept the remainder of the train on the track. All three of the engine crew were injured, but will recover

TWO MORE HAVE DIED

List of Fatalities in Rock Island Wreck Now Numbers 44.

Marshalltown, March 22.—Two more victims of yesterday's Rock Island wreck died this morning, bringing the list of known dead to forty-four, and making the disaster one of the most appalling in the history of railroading.

Four more bodies were identified during the night, making the identified dead thirty-seven and leaving seven still unknown.

SPECIAL ON KATY

A SEED AND SOIL TRAIN SENT OUT BY STATE BOARD OF AGRICULTURE.

SPENT 30 MINUTES HERE TODAY

Departed for El Dorado Springs and Tie Up There for the Night—To End Three Days' Trip at St. Charles, Mo.

(From Tuesday's Daily.)

The seed and soil special train from the college of agriculture, University of Missouri, en route from Columbia to El Dorado Springs, on a three days' trip over the M., K. & T. railway, spent thirty minutes in Sedalia this afternoon.

The train left Columbia at 7:30 a. m. and arrived in Sedalia at 1:39 p. m. It was in charge of Conductor R. E. Kearns and Engineer John Bour.

The train consisted of two coaches for the speakers, dining car No. 15 and special car No. 26.

After a thirty-minute stop here the train pulled out for El Dorado Springs, where it will tie up for the night. It wil tie up at Harrisonville Wednesday night and complete the trip at St. Charles, Mo., on Thursday. While en route twenty-four different towns will be visited.

The members of the party making the trip are: F. B. Mumford, dean of the college of agriculture; C. H. Eckles, professor of dairy husbandry; Dr. J. C. Whitten, professor of horticulture; M. F. Miller, professor of agronomy, E. A. Trowbridge, professor of animal husbandry; T. C. Wilson, secretary of the state board of agriculture, and S. M. Jordan, the "Missouri corn man."

The party is accompanied by S. G. Langston, general land and immigration agent; R. W. Hockaday, industrial commissioner; L. W. Mosher, commercial agent, and N. J. Finney, superintendent.

This is the third train to go out this year from the college of agriculture. The same party spent five days last month traveling over the Frisco lines and three days last week over the Burlington lines.

The object of the trip is the carrying of the University of Missouri, or a part of it, out into the state to those who cannot go to the university.

Fish Jump Into the Boat.

Mrs. C. E. Agenfritz, formerly Miss Isabel Daniel, writing to her stepfather, Dr. T. T. Clifford, from the Island of Jamaica, under date of March 11, says she and her husband are enjoying themselves to the fullest and adds:

"It is 90 in the shade today, but a fine breeze is blowing from the sea. When you go fishing here all you have today is to make a noise in the boat and the fish jump out of the water into the boat."

STRIKE TRUCE OFF

CONFERENCE IN PHILADELPHIA TRACTION COMPANY TROUBLE AT AN END.

CAUSED BY DYNAMITING A CAR

Conductor and Motorman Escaped Uninjured, but All the Windows in School Nearby Shattered by Explosion.

Philadelphia March 22.—According to the labor leaders last night, all conferences looking to the termination of the street car strike are at an end.

Following the dynamiting of a car near their headquarters, the police at midnight raided the headquarters of the striking trolley men.

Six patrol wagon loads of striking motormen and conductors were arrested and taken to the city hall.

They made no resistance and maintained that they had had nothing to do with the dynamite outrage.

There were no passengers in the car which struck the piece of dynamite.

The conductor and motorman escaped uninjured, but all the windows in a parochial school nearby were shattered by the force of the explosion.

FORMER SEDALIAN DEAD

Julius Wittstock Passed Away at Tacoma, Wash.

(From Tuesday's Daily.)

Julius Wittstock, son of the late A. Wittstock, of 400 East Second street, died at his home in Tacoma, Wash., Sunday, as was learned by a message received her by his sister, Miss Anna Wittstock, today.

Mr. Wittstock was reared in Sedalia and learned the shoe-selling business here. A number of years ago he removed to Fort Worth, Texas, and later to Tacoma, Wash., where he continued in the same line of business.

Julius was well and favorably known in Sedalia. He was about 42 or 44 years of age, and is survived by his wife and two children. The interment will take place at Tacoma.

DEATH OF MISS ARNOTT

She Was a Sister of Mrs. J. W. Tripp, of This City.

(From Tuesday's Daily.)

Information has been received here of the death at Champaign, Ill., last Saturday night, of Miss Fannie Arnott, a former Sedalia lady, after a brief illness with pneumonia.

Miss Arnott was a sister of Mrs. J. W. Tripp. Years ago she lived in Sedalia, but some fifteen years ago moved to Champaign, where she had resided since. The burial was at Marietta, Ohio.

Merchants Keep Streets Clean.

Harrisonville, Mo., March 19.—The streets of Harrisonville in the business section of the town are to be kept much cleaner than usual this spring, as a number of merchants have raised a sufficient sum to employ a negro to devote his time to keeping them as near spotless as possible. This manifestation of civic pride on the part of the business men is greatly appreciated by the residents, who like to come down town just to walk on the beautiful clean walks. This action is pleasing to the merchants, as callers down town usually part with more or less coin before returning to their homes.

WOMAN IS CAUGHT

WEALTHY WIDOW FROM MONTANA ARRESTED ON SMUGGLING CHARGE.

HER HUSBAND LEFT HER $250,000

Parisian Labels of Mrs. Wollman's "American" Gowns Found by Inspectors on Her Return From Trip to Europe.

New York, March 22.—Mrs. C. A Wollman, a wealthy resident of Helena, Mont., returned from her first trip abroad yesterday on the North German Lloyd steamship George Washington, only to be arrested on a charge of attempting to smuggle.

Mrs. Wollman brought seven large trunks. She declared dutiable goods to the amount of $100 and insisted, in spite of repeated questioning by Deputy Surveyor Harris, that all her purchases abroad were represented by the amount named.

An inspector who was detailed to examine the contents of her trunks, reported that two of them were filled with costly gowns, made according to the lates Paris modes

A woman inspector was called and Mrs. Wollman was compelled to go back on board the ship, where in her stateroom she was obliged to submit to close search of her person. As a result a costly pearl and diamond brooch, several rings and lastly six Parisian dress labels were found.

It was the discovery of the labels that caused the arrest of Mrs. Wollman. She insisted that the jewels were her own and that she had concealed them for safety.

When told that she was under arrest she asked that word be sent to United States Senator Carter, of Monana, who was lunching at the rooms of the Rocky Mountain club in the Waldorf-Astoria.

Mrs. Wollman was taken before United States Commissioner Rush in Hoboken, who, after a brief hearing, held her in $500 bail for further examination. The bail was furnished later.

Husband Left Her $250,000.

Helena, Mont., March 22.—Mrs. Cornelia Wallmon is the widow of J. P. Wallmon, who died here two years ago He was a large land owner and wool grower and a racing man. He left a fortune of about a half million. During the first term of President McKinley Wallmon was United States marshal of Montana. Mrs. Wallmon is an active member of the Christian Science church.

MR. HENRY OPERATED UPON

Popular Salesman Who Married Sedalia Girl Recently.

(From Tuesday's Daily.)

Edward Henry, traveling salesman for the Loose-Wiles Cracker Co., of Kansas City, was operated upon for appendicitis at a Kansas City hospital at 6 o'clock last evening, and according to a telephone message from Mrs. Henry to her mother, Mrs. S. R. Payne, today, Mr. Henry is in a critical condition, and no hope is entertained for his recovery.

The first message came at 9 o'clock last night, stating that the patient was in a critical condition. Another message came this morning, saying that the patient had spent a very bad night, and a third message came at noon today, saying Mr. Henry was resing more quietly.

DO YOU KNOW G. W. BLAIR

He Was One of the 46 Killed in Wreck on the Rock Island.

(From Tuesday's Daily.)

Among the 46 reported killed in the Rock Island wreck near Marshaltown, Ia., Monday, was the name of G. W. Blair, of Sedalia, Mo.

It is not known who Blair is. Saturday afternoon a young man attired in the garb of a laborer or farm hand, accompanied by a friend, applied at the Missouri Pacific ticket office for transportation to Cedar Rapids, Ia.

Sunday afternoon the same individual bought a ticket to Grundy Center, Ia., leaving Sedalia on Missouri Pacific train No. 1. He took the Rock Island railway out of Kansas City, and it is thought this is the man who is referred to as G. W. Blair.

In addition to the 46 killed, 36 persons were injured.

Another report is that Blair some ten years ago was employed as locomotive engineer on the Missouri Pacific and M., K. & T. out of this city. He was a bachelor, 45 years of age, and is thought to have a sister living here at the present time.

At 3 o'clock this afternoon Mayor Babcock received a telegram from the superintendent of the Rock Island railway, asking if Milton Parrish lived in Sedalia. If so, the message stated it might be Parris who was killed instead of G. W. Blair.

Milton Parrish resides on Walnut street in this city, and he and his wife left Sunday morning for Minnesota, traveling through Iowa.

If Parrish was killed or hurt and his wife survives it is thought she would have wired Sedalia friends.

FOUND WIFE DEAD

THIS IS ALLEGED BY CLARK AULICK, WHO RESIDES AT FELICITY, OHIO.

SAYS HE WAS ASLEEP BY HER SIDE

Despite This, He Heard No Shot—Coroner Orders Husband's Arrest —Had Been Quarrels Between the Couple.

Felicity, O., March 22.—Clark Aulick, aged 36 years, has been arrested here in connection with the death of his wife, aged 35 years.

Early Sunday morning Aulick rushed out of his home shouting for his neighbors.

"My wife has killed herself," Aulick told them. Several neighbors entered the house and found Mrs. Aulick dead in bed, a bullet hole in her temple.

"I was awakened by a sense of fear," Aulick told Coroner Mitchell, who arrived within an hour after the body was found.

"I was sleeping at my wife's side, but heard no pistol shot, however.

"Upon rising I called to my wife that it was time to rise, but she did not answer. I was horrified to find that she had shot herself. A revolver was clutched in her hand."

Coroner Mitchell did not believe Aulick's story and ordered his arrest. Aulick protested his innocence of any reponsibility for his wife's death.

When neighbors reached the body they found a revolver loosely held in the woman's hand.

Grace Aulick, aged 16 years, a daughter, was asleep in an adjoining room when Aulick summoned his neighbors. She says she heard no shot. Another daughter, aged 2 years, also was in the house.

The Aulick family came from Brown county to Felicity three months ago.

The authorities say numerous complaints had been made concerning quarreling by Aulick and his wife.

WILLIAM CULP IS DEAD

For Many Years He Was a Resident of Pettis County.

(From Monday's Daily)

Charles A. Culp, country circulator for the Democrat-Sentinel, Sunday received information of the death of his uncle, William Culp, at Collins, St. Clair county, where he died Wednesday and was buried Thursday.

Mr. Culp was for many years a resident of Pettis county, residing south of Sedalia. He was 85 years old and death resulted after a brief illness with pneumonia. He was for years engaged in the banking business, but retired to private life some time ago.

He is survived by his wife, one daughter and two sons.

TO BE READY FOR EASTER

The First Congregational Church Is Being Beautified.

The ladies of the First Congregational church need not hesitate to attend the Easter services at the church with their new hats and dresses, providing the weather is fine, for the entire church is being cleaned this week with the latest method of vacuum cleaning, under the supervision of F. L. Ludemann.

The ladies' parlors, the Sunday school rooms and the main auditorium are undergoing the process, and with the decorations which are being planned the church will present a fine appearance for Easter.

NO SUNDAY WORK

THIS IS AN ORDER OF THE PRESIDENT OF THE CARNEGIE STEEL COMPANY.

SOME 35 000 MEN ARE AFFECTED

Head Official Believes That Great Army of Workers Requires a Day of Rest—Do Better Work After It.

Braddock, Penn., March 22.—President Alvah C. Dinkey, of the Carnegie Steel company, an orthodox Presbyterian, does not believe in working Sunday any more than necessary, and from this source comes the most radical departure made by an industrial concern of any magnitude in the country.

He has issued an order to the managements of the mills, blast furnaces, foundries and like plants in Western Pennsylvania and Ohio, principally the plants at Youngstown and Lorain, that unnecessary Sunday labor must cease.

He specifies that the usual repair work which has been left over from week days until Saturday night might be done by the regular force on week days, except in such urgent cases where breakdowns of machinery may endanger the lives of the men or delay regular weekly operations.

At the Carnegie plants, and they number some 25 or 30, employing nearly 35,000 men, it has been customary to work from one-third to one-half the regular force on Sunday.

President Dinkey believes that the great army of workers require a day of rest, and that the trend of the times among the laboring classes demand it.

He agrees also that morally and from a purely commercial point of view employes work with a stronger zest after resting a day.

OTHER NEW DWELLINGS

The Building Boom Is Certainly On in Sedalia.

(From Monday's Daily)

F. T. Leaming, city engineer, today issued a permit to C. T. Glover for the erection of a seven-room frame residence on East Howard street at a cost of $1,700. The dwelling will be erected by Contractors Sutherland & Winner, and will be completed by June 1. It will be known as Lake View place.

A permit was also issued to Sutherland & Winner to remodel a frame residence at 657 East Fifteenth street at a cost of $425. The work will be finished by April 15.

George Fall was granted a permit to erect a four-room cottage at 1231 West Main street at a cost of $1,000. It will be finished by May 1.

SON AGAINST FATHER

Child of Dr. Miller Has Been Subpoenaed by the State.

Watseka, Ill., March 22.—Errington Miller, the 13 year-old son of Dr. William R. Miller, has been subpoenaed by the state to testify against his father in the trial of Miller, Mrs. Lucy Sayler and John C. Grunden, charged with the murder of Banker John B. Sayler at Crescent City, July 11, 1909.

It is declared that by accident the boy became aware of certain alleged relations between his father and Mrs. Sayler, and that his narration of the affair to his mother was directly responsible for a trip Mrs. Miller and the boy took to the east immediately prior to the shooting of Sayler.

Two jurors were accepted yesterday, making ten jurors in the box.

PINCHOT GOES TO LONDON

Ex-Chief Forester Summoned to Meet Roosevelt in England.

Washington, March 22.—In response to a cablegram from Col. Roosevelt, it became known here today that Gifford Pinchot sailed from New York Saturday and will meet the ex-president when the latter reaches London.

On Their Way to Prison.

Council Bluffs, March 22.—Maybray and his eleven associates who were sentenced to imprisonment at Leavenworth yesterday were taken to that place today.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country almost dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

FINED LAWYERS $25.

Anamosa and Shortridge Penalized to That Amount.

(From Sunday's Daily)

Judge Martin, of Boonville, acting judge of the Pettis county circuit court, Saturday granted a decree of divorce to Joseph Bradbury from Dora Savage Bradbury, after dismissing the defendant's cross-bill. The couple were married in this city on June 13, 1907.

During the course of the hearing Attorneys G. W. Anamosa, representing the defendant, and A. L. Shortridge, leading counsel for the plaintiff, indulged in an altercation, resulting in each being fined $25 for contempt of court. The fine was remitted later.

Bradbury is an old man, and was married to the woman at the home of Mrs. Polly Bryant Howe. Shortly afterwards Bradbury applied for a divorce, alleging that the woman had married him for nothing more than to get possession of a portion of his estate.

Sold Home for $2800.

W. H. Highleyman, the insurance writer, Saturday sold his residence property, 229 South Moniteau avenue, to James A. Capen for $2800. Possession will be given on April 1. The house contains six rooms and is modern. Mr. Highleyman and family will after the foregoing date be located in the old Waldman home, 227 South Moniteau avenue.

WORTH A DOLLAR A DROP.

Fred Patchen, Manning, N. Y., writes:—"For a long time I was affected with kidney trouble which caused an almost constant pain in my back and inflammation in my bladder. Other remedies did not even relieve me, but two fifty-cent bottles of Foley's Kidney Remedy completely cured me and I have not had any symptoms of kidney trouble for over two years."—Arlington Pharmacy.

Shipped Car of Mixed Stock.

(From Monday's Daily)

C. L. Bruce, of West Third street, today shipped to the St. Louis market, via the Missouri Pacific, a car load of cattle and hogs.

"We have to mix 'em now," he said, "as it is hard to pick up a car load of either hogs or cattle, so scarce are they, all stock in condition having been rushed to market while the high prices prevail."

SPEAKER CANNON WAS DEFEATED ON EVERY BALLOT IN HOUSE SATURDAY.

VOTE WAS SUPRISINGLY LARGE

Insurgents and Democrats Combined and Eliminated Him From Rules Committee and Increased That Body.

International News Service.

Washington, March 19.—Speaker Joseph G. Cannon as a political entity and Cannonism as exemplified by the speaker were ground to pieces in a revolution in the house today.

By a vote of 191 to 155 the allied insurgent republicans and democrats ousted him from the committee on rules, through which he wielded his greatest power, and enlarged that committee from five to ten members by the same vote. The house, however, declined to take the speaker's chair away from him. Cannon and his supporters were outvoted, outgeneraled and outfought.

The speaker himself, though he died "with his boots on," had the courage to resort to a vote that discredited him with defiance and dared his opponents to follow their advantage and throw him out of the speaker's chair.

Following the passage of the Norris resolution increasing the rules committee and barring the speaker from it, Cannon asked the house's indulgence and made the most dramatic speech of his long career. After reviewing the present situation at great length, he said:

"Two courses are open. One is for me to resign and permit the new combination to choose a speaker in harmony with its aims and purposes. The other is for that combination to declare the speakership vacant and proceed to the election of a new speaker.

"In the judgment of the speaker, resignation in itself is a confession of weakness or an apology for past actions. The speaker has construed the rules as they have been in force for two decades. There has been much talk on the part of the minority of czarism. The real truth is, there is no cohesive republican majority in the house. Under the constitution, it is a question of the highest privilege for the actual majority of the house at any time to choose a new speaker and I now notify the house that the speaker will at this moment entertain a motion to vacate the chair.

The applause following this speech was terrific. Representative Burleson of Texas, against the pleadings of his associates, immediately sent a resolution to the desk declaring the speaker's chair vacant.

The wildest confusion then prevailed. Gaines, of West Virginia, who had yielded a motion to adjourn in order to receive the speaker's statement, insisted that his motion had preference.

After pounding the house into some semblance of order, Speaker Cannon ruled that Representative Gaines had the right of way, but said he would be gratified if the adjournment resolution were withdrawn. Mr. Gaines refused to withdraw and his motion was put and defeated. Then came the vote on the Burleson resolution which was defeated and the house adjourned.

Make-Up of New Committee.

Washington, March 19.—The probable make-up of the new committee on rules is: Republicans—Olmsted, of Pennsylvania; Tawney, of Minnesota; Smith, of Iowa; McKinley, of California; Madison, of Kansas insurgent republican; Currier of New Hampshire. Democrats—Clark, of Missouri; Fitzgerald, of New York; Underwood, of Alabama, and Howard, of Georgia. Madison, of Kansas, voted for the exclusion of Speaker Cannon from the committee on rules, but voted against ousting him from the speakership.

Details of the Battle.

Washington, March 19.—The conference of the house regulars and insurgents failed to reach an agreement this morning, and at 11 o'clock the members left the committee room.

"There is no agreement, and the fight is on," said Representative Norris, of Nebraska.

How to save Cannon from a humiliating defeat. That was the proposition around which all the interest at the capital centered, so far as the regular republicans of the house were concerned. It was the one thought that dominated their every action today.

A full attendance of members were on the floor and the galleries were crowded. A number of the most radical members of the insurgent faction were not concerned about what would happen to the speaker, and the democrats, of course, were interested only in inflicting as much damage to the majority as possible. It was admitted on all sides, boastfully by the insurgents, but quietly by the regulars that the fight on revision of the rules had been won by the anti-Cannon forces, and that the present rules committee would be overturned and a new committee selected by the house.

Very soon after the house convened Speaker Cannon made his ruling on the Norris resolution, offered Friday, and in it sustained the point of order raised against it. Norris then appealed from the decision of the chair, and Dalzell moved that the appeal be laid on the table.

For this motion the Cannon forces mustered every vote they had, but the tide was against them and they could not stem it. The vote against laying the appeal on the table was decisive—164 ayes and 181 nay.

Thirty-five members of the speakers party voted against him on the issue that meant his dethronement from the chairmanship of the committee, which for so long has controlled the proceedings of the house.

Mr. Norris then moved the previous question. It was ordered and at 1:40 o'clock began the vote on the Nebraskan's appeal.

This brought to a vote the appeal from the speaker's ruling. And that vote apparently was one that would register the speaker's fall.

Roll call on the appeal from the decision of the speaker was begun at 1:30 and the result showed that the appeal had been sustained and that the speaker had been overruled. The vote against the speaker was 182 to 160. The result had been foreseen and the applause was rather mild.

ELKS' MINSTRELS MAR. 29

The First Rehearsal Was Held Sunday Afternoon.

(From Monday's Daily)

Mr. and Mrs. Joe Bren, who are to produce the Elks' Mammoth Minstrels at the New Sedalia theater next Tuesday, March 29, arrived in town Sunday morning, and yesterday afternoon, from 2 until 5, drilled the eight end men until they were all weary from overwork. They all, however, agreed that it is the best arrangement of minstrel work taht they have ever entered into, and this insures a grand show on the night of the 29th.

Mr. Bren has an entirely new and original idea in minstrelsy, and one that will be a complete surprise to every member of the audience. The chorus will comprise sixteen of Sedalia's bes lady voices and sixteen of her best men voices, while there will be an interlocutor that has got all professional middle men "tied to a post." And this is saying nothing about the eight "fun makers;" if the Democrat-Sentinel started to write about them it would be impossible to get anything else in this paper. Suffice it to say, that they will keep the audience laughing every minute of the time that they are on the stage. As Bosserman remarke dtoday, "The dope that Bren has given us to 'dish' out to the crowd is a sure cure for the blues."

Henry Leist is managing the company, and Bren is atending to the directing. The tickets are out and going fast. Reserved seat sale is to open Thursday, March 24, at 10 o'clock at the New Sedalia theater.

A PIG WITH EIGHT FEET

Monstrosity Born Sunday on the Farm of Ben W. Harned.

A monstrosity was born at the farm of Ben W. Harned, the well known Poland-China hog raiser, northeast of the city, Sunday, the curiosity being a pig, one of a litter of ten, with eight feet.

The pig was perfect in every other way. All ten of the pigs, also the mother, died shortly afterwards.

The specimen was taken care of by Dr. W. S. Manley, the veterinarian, who had been summoned, and will be preserved in alcohol.

CLOSE OF MISSION

REV. FR. VIRGILIUS KRULL, MISSIONARY, CONCLUDED HIS LABORS LAST NIGHT.

HE DEPARTS FOR HUNTINGTON, IND.

A Mission to Continue Two Weeks Began There Yesterday—Services at Sacred Heart Church During Holy Week.

(From Monday's Daily)

Last night the mission at Sacred Heart church came to a solemn conclusion. Fr. Virgil Krull preached a touching sermon on "Perseverance," and gave the papal blessing.

The church was crowded to its utmost capacity, the largest audience being present since the dedication of the edifice.

Fr. Virgilius left at noon today for Huntington, Ind., the former home of the Rev. Fr. Rudolph Stoltz, first assistant pastor of Sacred Heart church, where a mission was opened by Rev. Fr. George Heldman yesterday and which will continue for two weeks.

While the mission here has ended, the work of saving souls is not concluded at Sacred Heart church, and Holy week will be celebrated in the following manner:

Wednesday, Thursday and Friday, Tenebrae, called from the darkness caused from the gradual extinguishing of the lights, consisting of the matins and lauds, will be recited at 7:30 p. m.

On Holy Thursday there is a respite in the mourning of the church over the passion and death of Christ because on this day He instituted the Holy Eucharist.

On Good Friday the church is plunged into a depth of grief and sorrow. On this day the priests are dressed in black vestments. Good Friday is the only day in the year on which mass is not celebrated.

Thursday and Friday mornings services will be at 9 o'clock.

On Holy Saturday the new fire struck from a flint is blessed, from which a triple candle is lighted as a symbol of the Trinity.

Saturday mass will be said at 8 o'clock and ceremonies will begin at 6 o'clock.

On Easter Sunday services will be at 8, 9 and 10:30. At 10:30 a solemn high mass will be chanted, with Rev. Remigius Monnin as celebrant, Rev. Rudolph Stoltz as deacon, and the pastor, Fr. Neiberg, as sub-deacon.

The sermon will be preached at this service by Fr. Neiberg on "The Risen Savior."

HAD LIVED HERE 36 YEARS

Frank L. Williams Will Locate in Ripley County, Mo.

(From Monday's Daily)

Frank L. Williams, the photographer, for thirty six years one of Sedalia's very best citizens, left Sunday night for Doniphan, Ripley county, where he will make his home in future. Mrs. Williams is still here, but will join her husband at Doniphan within the next month.

It is Mr. Williams' intention to open a photograph gallery at Doniphan, where he will have the business practically to himself, the nearest opposition being some forty miles distant.

He will also engage extensively in the raising of chickens, conducting a chicken ranch, as it were, and expects it to prove quite remunerative.

Mr. Williams is truly one of the city's old timers, and he will carry with him to his new home the very best wishes of a legion of friends.

Death of Thomas L. Brice.

(From Monday's Daily)

Thomas L. Brice, aged 84 years, who lived near Brown's Springs but who has been ill on South Moniteau street for some time, died at his room at 2 o'clock this afternoon of general debility. He has no living relatives.

The remains will be buried by the side of his wife at Bethlehem cemetery, south of the city, but the time has not been fixed.

Meeting of the Alliance.

(From Monday's Daily.)

At the regular weekly meeting of the Ministers' Alliance, today, Rev. Frank Y. Campbell, pastor of the First Baptist church, read a paper, "The Causation of Crime," which he read recently before the Nehemgar club. The paper was discussed by the divines. Other business of the session was all of a routine nature.

New Record In Prices of Sheep.

Kansas City, March 21.—Lambs sold $10.25 today and ewes at $8.10—a new record.

The Judge Met John A. Logan.

Judge N. H. Rogers returned Sunday night from a visit of several days at Nolan, Mora county, N. M. While in that section of the country Judge Rogers met John A. Logan, formerly a clerk for C. E. Messerly, who is now the owner of a large ranch there. Mr. Logan is doing well and likes the country exceptionally well.

Rcosevelt and Party Leave Shalls.

Assuan, Upper Egypt, March 21.—Col. Roosevelt and party left Shalls on the regular express train today, and should reach Luxor this evening.

GOODBYE, WINTER

"GENTLE SPRING," ACCORDING TO THE ALMANAC, USHERED IN TODAY.

SO SAY THE "SCIENTISTS" ALSO

On the Morning of March 21 the Sun Crosses the Celestial Equator —Only Five More Days Until Easter Sunday.

(From Monday's Daily)

Spring has arrived!

While most people were wrapped in the embrace of Morpheus, or, as the poets put it, pounding the pillow, spring "arrove."

Early this morn, with only the pale stars and the milkmen to greet her, the fair maiden of our wintry dreams hit town and took up her residence in our midst.

Hail, gentle spring! Sweet giver of the gifts of gods, of mushy poetry and garden greens, all hail!

Also, King Winter is dead—maybe. At least, so says the almanac. Science, cold and calculating, had set the early morn of March 21 for his passing, and the scientists are always right.

For those perpetual grouches who don't believe, this clincher is quoted from the almanac:

"On the morning of March 21 the center of the sun crosses the celestial equator and spring begins."

So, there!

SALINE COUNTY WHEAT

Some Farmers Say Two-Thirds of the Crop Is Ruined.

Slater, Mo., March 21.—Wheat in this section has been badly damaged, although there is a difference of opinion in regard to extent of the damage done.

A number of farmers state that two-thirds of the crop is ruined while others place the damage at less than one-half of the crop.

Wheat on the high ground has come through in good shape and is likely to bring the general average up to normal. One grain dealer says that he has observed that the best crops are nearly always harvested in years when the farmers do more complaining than usual.

Deed 186 Years Old at Clinton.

Clinton, Mo., March 21.—A deed to 280 acres of land in King George county, Virginia, signed by Robert Carter, who was agent and representative in America of the Right Hon. Thomas Lord Fairfax, of Cameron, Ireland, in September, 1724, is in the possession of W. F. Carter, of Clinton.

The deed, although 186 years old, is in an excellent state of preservation. Most of the writing can be read without any difficulty. The document is about 24 inches wide.

Writes History of County.

Linn, Mo., March 19.—A series of articles concerning the early history of the county, county offices and men who have occupied them is being written by Judge E. M. Zevely, one of the early settlers of Osage county, who is well versed in all matters of importance that have taken place since he came on the field of action. The articles are being published by a local paper and are unusually interesting.

Picture of a Sedalia Boy.

The Democrat-Sentinel Saturday received by mail a photograph of the members of the Chicago White Sox baseball team in a group, taken at Denver, Colo., the team and a number of spectators having alighted from a D. & R. G. train expressly for that purpose. Conspicuous in the picture is a likeness of Harry Suter, a Sedalia boy, who is leaning against the headlight of the engine.

What's the Answer?

Here's a poser: If a one-eyed mule cow can eat four green cabbages before a hunchbacked man can wind an eight-day clock, how long will it take a snowball to melt in a country where the thermometer has dropped 60 degress in sixty minutes if the snowball was there first?—Ex.

Finishing New Home Rapidly.

(From Sunday's Daily.)

The work on the Odd Fellows' building, Fifth street and Ohio avenue, is being pushed rapidly and will be entirely completed by the first day of April.

The carpenter work on the lodge room is already finished and painters are now at work. The hall has been leased by Sedalia camp of the Modern Woodmen of America, both councils of the Kights and Ladies of Security, the Loyal Rebekahs and will also be used by Sedalia lodge of Odd Fellows.

The Modern Woodmen will be the first lodge to meet in the new hall.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R.V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit.

NE PROHIBITION STATES AND THIRTY-THREE OTHERS HAVE OPTION LAWS.

MANY CITIES ARE WITHOUT DRINK

Anti-Saloon League Year Book Shows Remarkable Progress in Past Year—Other States Ripe for Statewide Prohibition.

Columbus, O., March 21.—The year book of the Anti-Saloon league, just issued from the leagues printing establishment here, contains most interesting facts concerning the fight which was conducted by the league during the year 1909, with other interesting matter concerning the liquor traffic.

There are nine prohibition states—Alabama, Georgia, Kansas, Maine Mississippi, North Carolina, North Dakota Oklahoma and Tennessee. Thirty-three states have local option laws of some kind or another, and nine states and territories license the liquor business. Pennsylvania and New Jersey are the only ones of importance in this list. the others being mostly undeveloped territory. They are Alaska, Nevada, New Mexico, Hawaii, Wyoming, Utah and the District of Columbia.

In Wyoming, however, the league has had a law passed abolishing all saloons outside of municipalities.

In the Jan. 1, 1910, white and black map showing wet and dry territory, the state of Pennsylvania is the only largs state which appears as an almost solid piece of black. The others are Montana, Washington, California, Nevada, Arizona, New Mexico, Minnesota and New Jersey. New York and Pennsylvania are the only states in which there has no been advanced temperance legislation during the last three years.

The dry area of the United States is 2,112,304 square miles, against 1,509,909 miles wet; the population living in dry territory is 41,557,516, against 46,382,076 in wet. The largest dry city is Memphis, 175,000; next is Nashville, 150,000; Atlanta, 140,000 Birmingham, 135,000; Cambridge, Mass., and Kansas City, Kan., 100,000, these comprising the list of cities of 100,000 or more which are dry. There are thirteen dry cities between 50,000 and 100,000; thirty between 25,000 and 50,000 and 153 of 10,000 or more up to 25,000.

High water mark in the production of all distilled spirits produced from materials other than fruits was reached in 1907, 168,573,913 gallons. It fell to 126,989,740 in 1908, and for the fiscal year ending June 30, 1909, it went to 133,450,755. There was a decrease of 2,444,183 barrels in beer production for 1909, as compared with 1908.

New York headed the list of beer consumers for 1909 with 13,000,000 barrels. Pennsylvania comes second, with 7,500,000. The nation's drink bill for the year was $1,750,000,000, against its potato bill of $205,000,000; its flour bill of $425,300,000; its iron and steel bill of $1,000,000,000, and its meat bill of $1,500,000,000. Its bill for public education was but $310,000,000.

One of the stronger arguments the league presents is the average distribution of money spent for liquor and the money spent for other manufactured products. Of the dollar spent for liquor the brewer, distiller and retailer gets 76.2 cents; the United States government gets 8.7 cents; the local government gets 5.1 cents; the farmer gets but 3 cents; labor gets only 2 cents and the salaried employes 1 cent; express and railroad companies get 1 cent, and other industries get the balance.

Of the average dollar spent in other lines of trade labor gets 18.2 cents; the farmer or other producer of raw material gets 19.4 cents; salaried employes get 3.5 cents; express and railroad companies get 3.2 cents; the retailer, wholesaler and manufacturer 48.8 cents; the fuel business 1.8 cents; rent and taxes 1 cent, and other industries the balance.

The Anti-Saloon league is declared to stand unalterably opposed to a system of license, high or low, for three principal reasons. 1. If the saloon as a business is right, it should be as free as the grocery business or the dry goods business, and if it is wrong its recognition by the government can not be made right for the consideration of so many dollars per year. 2. The system of license fosters a spirit of lawlessness on the part of saloon keepers. 3. The system of license, on account of the source of revenue which it creates, forms an intrenchment for the saloon from which dislodgement is exceedingly difficult.

The significant statement is made that "many states are now ripe for state-wide prohibition," but the names of these states are not given. It is known, however, that Ohio is considered one of them, as the league has started a campaign with an eye to electing to the next legislature members who will submit the question of a constitutional amendment to the electorate.

An Auto Trip to Warrensburg.
(From Monday's Daily.)

Mel Ilgenfritz, accompanied by Will Waldman and W. P. Stanley, drove his Buick automobile to Warrensburg and return Sunday. The party left here at 8 a. m., and arrived at the Quarry City at 10:30 o'clock. The return trip was made in about the same time, the trio leaving there at 2:30 p. m. and arriving here at 5 o'clock.

FOUR YEARS AGO

MURDER WAS COMMITTED IN ITALY IS NOW BEING TRIED IN THE COURTS.

VICTIM WAS AGED NOBLEMAN

He and Old Servant Found Dead in His Villa—Many Arrests Were Made and Accused Have Been in Jail 4½ Years.

International News Service.

Milan, March 19.—At Bari Assizes has begun a sensational trial connected with the mysterious murder of Count Domenico Viti at his country villa at Altamura in September, 1905. The count lived alone with an aged housekeeper named Lucarelli, and he had also in his service a young maid, who, however, slept in the village. One morning going to the villa to prepare the count's breakfast, the girl rang the gate bell for a few minutes in vain. Later she noticed thick columns of smoke rising from the bedroom. A crowd of peasantry and carabinieri hurried to the scene and forced the doors. They stumbled across the dead body of the old servant lying in a pool of blood in the kitchen. Afterwards they recovered the half carbonized corpse of Count Viti, under whose bedroom a large quantity of wood soaked in petroleum had been stacked and kindled.

The autopsy revealed that both victims had been stunned by blunt instruments and afterwards stabbed. Many arrests followed, and seven prisoners, including the gardener and intimate acquaintances of the murdered nobleman, have patiently awaited trial these four and a half years in gaol. The evidence is purely circumstantial in character. All the accused produced alibis.

In addition to a galaxy of noted barristers there are 365 witnesses to be examined. By dint of hard work the court hopes to finish the trial towards the end of next June, when it is generally expected that all the prisoners will be acquitted for want of proof of their guilt. In a harangue which lasted over three hours, one of them recounted how he was bound by ties of personal friendship to the count, how he helped to rescue the charred remains, to superintend the funeral of the victims, and how he reared memorials over their tombs with his own hands. The densely packed court was moved to tears by his pathetic eloquence.

McAlester, Ok., March 19.—More than 1,000 cars of coal have been stored at Denison, Texas, and nearly 1,000 at Hillsboro, Texas, by the Missouri, Kansas & Texas, in anticipation of a strike of coal miners. Coal trains are given preference over other freight trains.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

MULES IN MISSOURI

ASSESSORS ALSO FIND MORE HORSES—CATTLE, HOGS AND SHEEP DECREASE.

THE VALUATION IS $139,150,431

Live Stock Sales During 1909 Are Valued by Labor Bureau at $119,251,000 — Statistics From Red Book.

Special to the Democrat-Sentinel.

Jefferson City, Mo., March 21.—A census of the live stock of Missouri, which includes the returns made by the assessors of the 114 counties of the state and the city of St. Louis for the 1910 taxation, and adding half of the surplus which was placed on the market in 1909, reveals that at the most populous time for animal life last year there were in existence on the farms and elsewhere 10,072,939 head of horses, mules, cattle, hogs and sheep of varying ages and sizes.

The bureau of labor satistics has arrived at these figures by adding together the returns made to the state board of equalization for reserve and taxable live stock and half of what was sold during the year as surplus. Calves, pigs, lambs and colts are included in the surplus, as much of the live stock was marketed in that shape.

Only half of the surplus live stock of the state is added to the returns of the assessors, because half of the year was over before they took the taxation census and half of the total amount marketed in 1909 had already been sold.

Advance information from the 1910 "Red Book," which is now being compiled, under the direction of Labor Commissioner J. C. A. Hiller, is to the effect that 7,189,620 head of cattle, horses, mules, hogs and sheep were sent to and sold in the cities and larger towns of Missouri in 1909 by farmers and stock raisers, bringing the enormous sum of $119,251,200.

With the assessed value of all reserve live stock, which is placed at $79,524,831 by the county assessors, and figuring that half of the surplus had been marketed when the taxation enumeration was made, it means that all live stock in Missouri in 1909, on the most prosperous day, was worth at the lowest figures $139,150,431.

An Enormous Market Value.

Considering the reserve live stock at its market value which is from two to four times greater than the assessed value, the 10,072,939 head would have sold for $320,344,928, had all reached the market alive and in sound condition.

With the value of Missouri's live stock at $320,344,938 last June, when the census was taken, some tall figuring can be done to show what such a large sum of money means. It would have paid for the state's wheat crop in the same year, as large as it was, placing wheat at a dollar a bushel, nearly fifteen times. The state's corn crop at 60 cents a bushel, would have been paid for two and one-half times.

Nine-tenths of Missouri's corn is kept on the farm and fed to live stock. Considering that half of the live stock must be kept at home for reserve purposes, and that the expense of feeding this proportion must go against the value of the surplus, which is marketed, it can be figured that every bushel of corn at 55 cents a bushel, produced live stock weight to the value of a dollar.

The census of the assssors of the 114 counties and the city of St. Louis reveals that Missouri's reserve of live stock for the 1910 assessment consisted of 6,551,528 head, which were assessed at $79,524,231, divided as follows:

	Heads.	Value.
Horses	868,829	$32,968,792
Mules	291,177	12,836,028
Asses, jennets	10,695	637,598
Neat cattle	2,060,757	25,587,253
Sheep	1,031,359	1,893,836
Hogs	2,259,785	5,464,038
Miscellaneous	28,937	137,209
Total	6,551,539	$79,524,831

At the real market value the lowest total sums this vast array would bring would be as follows, conservatively figuring:

Horses, $69,506,320; mules, $32,029,470; asses and jennets, $3,280,500; cattle, $72,125,495; sheep, $4,125,436; hogs, $22,597,850; miscellaneous $11,627; total, $201,093,738.

Gains Over 1908.

With 7,189,620 head of horses, mules, cattle, hogs, sheep and goats placed on the market in 1909, as advance figures from the 1910 "Red Book" of Commissioner Hiller's indicates, this is a gain over 1908 of 92,565 head, when a total of 7,097,055 head were marketed in the large towns and cities. The increase in value was much greater than has been the case for other years, because of the increased price every commodity brought in 1909. On early but not complete returns Supervising Statistician A. T. Edmonston has prepared the following table on the surplus live stock of Missouri for 1909, adding the statement that the compilation will undergo but slight changes when all railroad and steamboat agents have reported:

	Heads.	Value.
Cattle	1,450,000	$50,750,000
Hogs	4,525,000	45,250,000
Horses, mules	146,000	17,520,000
Sheep	1,050,000	5,250,000
Goats	17,800	71,200
Stallions, jacks	820	410,000
Total	7,189,620	$119,251,200
Total, 1907	7,097,055	112,535,494
Increase	92,565	6,715,706

The assessment census of 1909 shows an increase over 1908 in the number of horses and mules in the state, but a loss in reserve cattle, hogs and sheep, probably due to the high prices which caused all farmers and stock raisers to market every head which could be spared. In addition, corn reached such a high value that Missouri's farmers saw before them a good opportunlay not alone to unload all surplus cattle for a high recompense, but also to gather in many more dollars by ridding themselves of all the maize they had stored away for live stock food for the winter and the first four or five months of 1910.

BUYS 1,296,000 EGGS

Commission Man Purchases Nine Car Loads for Easter.

St. Louis, Mo., March 21.—One egg merchant in St. Louis has enough eggs on hand to supply one to every person in St. Louis and have plenty left. F. W. Brockman, a commission merchant, bought nine car loads Saturday. Each car contains 400 cases and each case 360 eggs. Therefore Mr. Brockman bought 1,296,000 eggs.

Counting the population of St. Louis and suburbs as 1,000,000, there are still 296,000 eggs left over. Mr. Brockman paid from 19½ to 20 cents a dozen for the eggs and most of them will be delivered this week for the Easter trade.

MR. QUIGLEY'S RAILROAD

There Is Talk of Extending It From Ava to Carthage, Mo.

Ava, Mo., March 21.—After being isolated from the outside world for many years, although the county seat of Douglas county, Ava has at last come into its own and is on the map for sure. This pleasing state of affairs is on account of the fact that the interurban railroad has just been completed from Mansfield to Ava.

The citizens of Ava and surrounding country raised a fund of $20,000 in order to secure the road, but feel that they are going to get more than their money's worth.

There is some talk of promoting a road from here to Carthage, as it is stated that if one road is good more would be better.

COOPER COUNTY WHEAT

Said That It Will Not Average More Than Half of Crop.

Wheat in Cooper county this year will not average more than a half crop. In some places the loss is almost total. Many farmers are plowing up their wheat and will plant the ground in corn and oats.

The bottom land wheat, usually the best, seems the most heavily damaged. This being a large wheat-growing section, the loss will fall heavily.

The damage to wheat is due to the freezing weather of December and February.

S.S.S.

CURES SKIN DISEASES

In this article we want to explain to you the cause of skin diseases, and also offer suggestions, founded on reason and experience, which will enable you to cure yourself if you are afflicted with any of the various forms of this trouble.

The skin receives its necessary nourishment from the blood. Every pore is kept open and every gland kept healthy by continually feeding on the nutritious properties which are distributed throughout the system by a pure, rich blood supply. As long as this normal condition exists the cuticle will be soft, smooth, and free from eruptions; when however the circulation is contaminated with humors and impurities its supply of nutritive properties is diminished, and it becomes a sharp, acrid fluid which diseases instead of preserves the natural health and texture of the skin.

Lying just beneath the outer covering or tissue-skin is a sensitive membranous flesh which surrounds and protects the tiny veins, pores and glands. It is here the impurities of the blood are deposited, and the acrid matter causes irritation and inflammation which splits or breaks the thin, tissue-like cuticle, and the result is outwardly manifested in Eczema, Tetter, Salt Rheum, or some other disfiguring or annoying eruptive disease.

It can readily be seen that since Skin Diseases are the result of bad blood, there can be but one way to cure them—purify the blood. Salves, washes, lotions, etc., are not able to do so, because they do not reach the blood. Such treatment is of no value except for its ability to temporarily relieve itching and assist in keeping the skin clean.

S. S. S. cures Skin Diseases of every kind by neutralizing the acids and removing all humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its rich, nutritious corpuscles, and adds to its purity in every way. Then the skin, instead of being irritated and inflamed by sour impurities, is nourished, soothed and softened by this cooling, healthy stream of blood. S. S. S. is the greatest of all blood purifiers, and therein lies its ability to cure skin diseases. The trouble cannot remain when the cause has been removed, and S. S. S. will certainly remove the cause. It cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, blackheads, etc., and all eruptions of the skin. Book on Skin Diseases and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

For six years I was severely troubled with a bad skin disease, located principally on the shins. The trouble would appear in the form of small yellow blisters, characterized by very severe itching, etc. I tried sarsaparillas, so-called blood purifiers, salves, ointments, lotions and treatment under a physician, but nothing did me any good. Becoming discouraged I left off all this treatment, and just about this time I saw S. S. S. advertised. One day I decided to give this medicine a trial, and after using it for a short while I began to improve. Of course I continued S. S. S. and it cured me completely. Quite a while has elapsed since I was cured and there has never been the slightest indication of the return of the trouble.

I had a bad case of Eczema, it being especially severe on my right hand. I was hardly able to use my hand in my work. I tried a great many things in an effort to get relief, but was unable to do so until I read of S. S. S. and determined to give it a trial. I used several bottles of this remedy and it cured the trouble entirely. S. S. S. put my blood in fine condition and left my skin soft and smooth. Though this was some time ago there has been no return of the trouble. CHAS. J. WOLF, JR.
904 S. Second St., St. Louis, Mo.

For four years I suffered severely with Weeping Eczema, located chiefly on the hands, both inside and out, and extended as far up as the wrists. I was under treatment most all the time, but could get no relief. One or two of my physicians said it was as bad a case of Eczema as they ever saw. I lost my finger nails once or twice as a result of the disease, and the itching, burning and pain I experienced I cannot express to you in words. I kept my hands bandaged all the while, but with only little relief. As I said, becoming discouraged, I gave up all treatment I was taking, and seeing S. S. S. advertised began it as a last resort. A few bottles convinced me that it was doing me good and I continued it, and in a short while I was entirely cured.

In the Probate Court, November Term, 1909—February 7th, 1910.

In the matter of William C. Lovelace, Presumption of death—No. 4034.

Now, on this day, a hearing being had upon the petition of Thomas W. Lovelace, heretofore filed, alleging that the said William C. Lovelace has been absent from the state of Missouri for more than seven years, comes the said Thomas W. Lovelace and files proof of publication of the notice of the filing of said petition, which said notice was published in the Weekly Democrat-Sentinel, a weekly newspaper printed and published in Pettis county, Missouri, for four consecutive weeks; the last publication whereof was had more than two weeks prior to this date, as shown by the affidavit of the publisher of said newspaper, filed herein.

And the court, having heard the testimony in relation to the absence of the said William C. Lovelace, finds that the said William C. Lovelace has been absent from the state of Missouri for more than seven consecutive years and that during that time no person interested in his estate and none of his relatives have heard from him or have any information concerning his whereabouts, wherefore it is ordered and decreed by the court that the legal pesupmtion of the death of the said William C. Lovelace is established and it is further ordered that notice thereof be published for four consecutive weeks in the Weekly Democrat-Sentinel, a newspaper published in said county of Pettis, and the said William C. Lovelace, if alive, or any other person for him, is hereby required to produce to the court on or before the 6th day of June, 1910, satisfactory evidence of the fact that he is still living.

A true copy from the record.

Witness my hand and seal of said probate court this 7th day of February, 1910.

MELLOR CHOSEN

WAS THE CHOICE OF THE DEMOCRATS AT CONVENTION LAST NIGHT.

W. H. POWELL DECLINED TO RUN

On Being Nominated, Mr. Mellor Said He Would Make a Clean Fight on Principle Advocated By Democrat-Sentinel.

(From Sunday's Daily.)

The democrats of Sedalia in convention last night nominated J. W. Mellor as their leader in the coming municipal election, April 5, for the office of mayor.

The nomination came as a surprise to many, as it was generally believed that some other man would be chosen as Mr. Mellor was not an active candidate.

However, the concensus of opinion seemed to be that Mr. Mellor was the logical leader in the present contest, and in consequence the convention unanimously made him its choice.

The covention assembled in the criminal court room at 8:15 o'clock. It was called to order by J. G. Dillard, chairman of the democratic city committee. On motion of John Montgomery, Jr., W. H. Powell was nominated for the office of temporary chairman, and was unanimously elected.

Ira Melton sumbitted the name of O. M. Barnett as temporary secretary of the convention and he likewise was elected by acclamation.

On motion of Mr. Barnett, seconded by Condi McHugh, it was ordered that a committee of one from each ward be named on credentials and order of

J. W. Mellor.

business. The chair was authorized to make the appointments.

Mr. Powell named as the credential committee Mr. E. W. Shultz, of the First ward; J. M. Dobel, of the Second ward; F. F. Hatton, of the Third ward; E. F. Yancey, of the Fourth ward.

The committee on organization was as follows: J. C. Williams, W. S. Baker, S. M. Hodges and S. E. Spencer.

The temporary organization having been made permanent, the effort to nominate Mr. Powell for the office of mayor resulted in him calling Dr. E. F. Yancey to the chair and addressing the convention briefly, declining to accept the nomination and releasing all delegates instructed for him as mayor.

Mr. Montgomery was persistent in his desire to see Mr. Powell enter the race, which brought Mr. Powell to his feet again. He reiterated his declaration and desire not to be considered as a candidate and that he would ask the convention to consider his decision final. In concluding Mr. Powell submitted the name of Mr. Mellor, and on a second by Mr. Looney the name of Mr. Mellor went before the convention, and he was elected by acclamation to lead the democrats in the coming city election.

Mr. Mellor, upon being nominated, addressed the convention, thanking the delegates for the distinction and honor bestowed upon him and the honor reposed in him. He said he would use every honest effort to become elected and said that he would adhere and stand on the platform as suggested by the Democrat-Sentinel in its issue of Friday, March 18.

Great applause greeted Mr. Mellor's remarks.

The next order of business was the nomination of a candidate for city marshal.

Dr. Weaver submitted the name of Howard Wood, the well known policeman, and receiving a second by "Lonnie" Dobel, Mr. Wood's name went before the convention to be voted on, and on motion of Mr. McHugh his nomination was made unanimous.

The city collector's office was the next order of business. There were two candidates, John Perdue and Judge O. E. Parsons, ex-judge of the probate court. The vote resulted in Mr. Perdue's election, 26 to 11. Mr Perdue's nomination was made unanimous on motion of Mr. Parsons.

A. R. Scott was placed in nomination by Ira Melton for city treasurer, and the nomination was made unanimous.

James C. Connor was nominated for police judge in the contest with T. J. McCormick, the vote resulting 29 to 8.

The contestants for city attorney were George F. Boothe, who came to Sedalia from Fortuna six weeks ago, and Eugene W. Couey, one of the cleverest and brightest young lawyers in the city. The vote resulted in Mr. Couey's nomination, 25 to 12.

The city assessor's office will be represented on the democratic ticket by G. C. Howell, who was placed in nomination by J. C. Williams and later made unanimous.

The school board directory was the next order of business. Ira Melton placed in nomination the present incumbent, W. H. Powell, whose nomination was made by acclamation.

Orville M. Barnett nominated Lee Looney for chairman of the city central committee, and as there were no other nominations Mr. Looney was elected by unanimous vote of the convention.

A FAREWELL RECEPTION

Given to Mr. and Mrs. W. B. Page in Smithton Friday Night.

(From Sunday's Daily)

A farewell reception was given Dr. and Mrs. W. B. Page, who leave shortly to reside in Colorado, in the Smithton M. E. church, Friday night, and was attended by a large number of friends and well wishers of this worthy couple. The affair, which was commendably arranged and carried out, was presided over by Mrs. Harry Sneed and appropriate addresses were made by F. L. Wright, Rev. A. Sterling, Miss Nellie Myers and Mrs. F. S. Beggs, to which Dr. and Mrs. Page responded very feelingly.

Light refreshments were served by the ladies of the church and some delightful instrumental music was rendered by Mesdames William Cook and E. G. Ringen, Miss Nettie Haire and Mr. E. C. Boucher.

Smithton is exceedingly loath to give up such citizens as Dr. Page, his wife and little daughter, who are factors in the welfare of the town, but the doctor's service of twenty-seven years of active and incessant practice of his profession in Smithton and the surrounding community has resulted in his health becoming somewhat impaired and he goes to Colorado, locating near Denver, to recuperate his health and secure a much needed rest. Dr. Page is an able physician, a most desirable citizen, and the community where he chooses to reside may count itself fortunate in securing him and his estimable family.

LOONEY & BLOESS LUMBER CO. FOR RUBBER ROOFING, $1.25 PER SQUARE.

HOME WAS BURNED

THE RESIDENCE OF MR. JOHN WADDELL WAS GUTTED BY FIRE TODAY.

SPARKS SET FIRE TO THE ROOF

Father of Mrs. Waddell, 103 Years of Age, Was Carried From the Burning Dwelling—Was $4500 Insurance on the Home.

(From Monday's Daily.)

The large two-story frame residence of John Waddell, former city collector, at 903 South Grand avenue, was badly damaged by fire, which was discovered in the roof of the house at 11:25 o'clock this morning.

A man delivering ice, while entering the back yard of the Waddell home, discovered a small blaze in the roof on the back part of the dwelling. He ran into the house and notified the fire department.

Both companies responded promptly, but when they arrived the whole roof was aflame. Chief Henry Willis directed his men to throw two streams of water on the burning building, and after fighting the flames for five minutes the men had the fire under control.

The water pressure was excellent, and the firemen caught the flames just as they were eating their way down the east side of the house, after the entire roof had been destroyed.

The men confined their attention to this part of the building, and managed to extinguish the blaze before the fire reached the second story.

The entire interior of the residence was badly damaged by water, thrown to extinguish the fire, the water dripping from the second floor to the floor below, damaging the furniture, walls and ceiling.

Frederick Saugrain, aged 103 years, the father of Mrs. Waddell, who makes his home with his daughter, was in the house at the time. As soon as the fire department arrived several men hurried to his apartment and carried him to the home of a neighbor. Late this afternoon he was removed to Maywood hospital.

The general supposition is that the fire caught from sparks from the kitchen flue. Several alarms were sent in to the fire department, the sparks from the fire being carried as far north as Fourth street.

It was impossible to estimate the loss, some placing it as high as $6,000. Others think that $3,000 on the house and $1,000 on the furniture will cover the loss.

Mr. Waddell carried $4,000 insurance on the house and $1500 on the furniture, all in the Reynolds agency.

A spark from the burning house ignited the roof of A. D. Stanley's barn, but this was easily extinguished.

Pieces of burning shingles were carried as far north as Albert Cassing's residence, northeast corner of Fourth street and Missouri avenue.

DAY NURSERY TO OPEN

Miss Virginia Parsons Has Been Elected to the Office of Matron.

(From Monday's Daily)

The board of managers make the announcement that the Day Nursery will be opened Wednesday, March 23, but not formally for the reception of children until the latter part of the week.

Miss Virginia Parsons, who for eight months was connected with an orphan home at St. Louis, has been elected to the position of matron, and will enter upon her duties Wednesday.

The Bell Telephone company and the Home Telephone company have installed free telephones, for which the board of managers return their thanks.

The following additional subscriptions are acknowledged:

W. H. Van Wagner	$5.00
Carl Barnett	5.00
Central Presbyterian church	6.00
J. L. Butterworth	5.00
Mrs. C. H. Rockwell	5.00
Judge C. W. Knox	2.00
Judge C. W. McAninch	5.00
Judge A. L. Haggard	2.00

There is a rumor in circulation that the children cared for at the Nursery are to be sent to an orphans' home in time. There is absolutely no foundation for any such story.

Girl, Aged 19, Arrested.

(From Sunday's Daily.)

Dora Smith, a white girl, aged 19, who came to Sedalia from Clinton several days ago, was arrested Saturday by Assistant Chief of Police Fred Robertson for loitering around the M., K. & T. station. She was committed to a cell in the city bastile and will be furnished with transportation out of he city.

When arrested the girl said a young man, wearing a star, had paid for her lodging at the White House hotel. The authorities are unable to learn the name of the new officer.

Mrs. J. D. North Dead.

(From Sunday's Daily)

Mrs. Nora B. North, wife of J. D. North, an employe of the Sedalia Light and Traction company, died from tuberculosis at her home, Twenty-second street and Marvin avenue, at 10:30 o'clock Friday night, aged 27 years.

The Rev. R. C. Miller, pastor of the East Sedalia Baptist church, will conduct funeral services at the family residence at 2:30 o'clock this afternoon. Burial will be in Crown Hill vemetery.

THIRTY-TWO DEAD

ROCK ISLAND PASSENGER TRAIN DERAILED AT GLADBROOK THIS MORNING.

LIST OF INJURED IS VERY GREAT

Train Was a Consolidation of Two and Was Detouring Over Great Western Tracks Because of Washout.

Des Moines, March 21.—F. W. Cherry, of Princeton, Iowa, one of the passengers on the Rock Island train which was wrecked at Green Mountain today, telephoned this afternoon that the total dead numbers 42 with the injured list probably as great. Cherry said he helped remove 37 dead from the wreck.

Train Went Into the Ditch.

Marshalltown, March 21.—A Rock Island passenger train went in the ditch at Gladbrook, Iowa, this morning and the number of dead is placed at thirty-two. Twenty-four persons were injured. Nearly all the casualties occurred in the chair car, although two of the sleepers were also wrecked. All available physicians and volunteer nurses from this city were dispatched to the scene and brought the injured back to Marshalltown. The train was a consolidation of two others, both known as the Twin City Express, one from Chicago and the other from St. Louis. A washout of a bridge north of Cedar Rapids made a detour over the Chicago Western tracks necessary and the trains were combined.

The dead includes the conductor, fireman, brakeman and porter, all of Cedar Rapids. Others have not been identified. Among the injured are Mrs. R. Paterson, of Louisiana, Mo.; Nora Wilcox, of Louisiana, Mo., and Dr. D. W. Newman, of Mount Vernon, Mo. Several of the injured are fatally hurt.

HOLDUP IN CHICAGO

A Typical Wild West Scene Was Enacted There Saturday.

Chicago, Ill., March 19.—A typical wild west holdup was staged here today when two masked men boarded a street car and forced several passengers to deliver their money at the point of a gun.

The men boarded the car pushing the conductor inside, and ordered the passengers to line up. While one man kept them in line the other went through their pockets.

A GIRL OF 13 WEDS

ITALIAN LASSIE LIVING IN KANSAS CITY AND WEARING SHORT DRESSES.

SHE IS A PUPIL IN THIRD GRADE

Lover Feared Child Bride Would Marry Some One Else During His Trip to Europe, So the Nuptial Knot Was Tied.

In a cream-colored dress, which reached but a trifle below her knees, Miss Augustina Lodata, 13 years and four months old, a pupil in the Third grade of the Eugene Field grammar school in Kansas City, Kas., and Casimo Geraci, 22 years old, were married Saturday afternoon in the office of Judge Van B. Prather, probate judge of Wyandotte county.

The child-wife and the groom were accompanied by the bride's mother and stepfather, Mrs. Antonio Twentymiles and Samuel Twentymiles, of 106 Greely avenue, Kansas City, Kas.

Judge Prather was startled when Geraci told him that the bride was less than 14 years old, but his surprise was increased when Geraci's reasons were presented. Geraci is going in a short time on a year's visit to his own sunny Italy. He was afraid that some fellow would steal his girl, while he was away, so he married her.

Geraci will not live with his wife, but will leave in a few weeks on his long trip. Saturday he gave the marriage certificate to his bride's mother, who in the soft accents of her native Italian swore that she would keep the girl until he returned. Geraci is a stonemason. He lives at 3922 Vine street.

Judge Prather gave the marriage license to the girl's mother, with a warning that the child should be kept at home and in school until her husband's home-coming. The mother, whose eyes were wet, grasped the judge's hand and solemnly promised to fulfill that duty.

Augusta's eyes match her raven hair. Her English is perfect, and one would not think she was of foreign parentage save for the low, modulated tones which mark the Italian tongue. She acted as spokesman for the party, and she told the story of her life and romance.

"I was 13 years old last December," she said. "I was born in Kansas City, Mo. My father was Lorenz Lodata, but he died when I was a baby, and I don't remember him. My stepfather and my mother were married eight years ago. My husband knew my own father and mother when they were in Italy. He has visited at our home many times, and I love him. He is going back to Italy in a few weeks, and I was afraid he would meet some one over there, and he was afraid I would love someone over here, so we were married."

As the little girl talked she would occasionally turn and speak in Italian to her mother and then to her husband to confirm what she was saying. An affirmative nod of the head always greeted the little speeches in Italian.

"I don't see why you think it funny that I am getting married," she said. "My mother says that girls who are younger than I am often marry in Italy. Anyway, my husband is going away, and when he comes back I will be a woman."

As the wedding party left his office Judge Prather, who is somewhat of a humorist, remarked that he had heard of fire, life, automobile and most every other kind of insurance, but that he had never before heard of a man insuring himself a wife.

WAS BIG SWINDLE

THAT REPORTED TO AUTHORITIES AT OKLAHOMA CITY, OKLA., SATURDAY.

VICTIMS LOST ALMOST $6,000

Confidence Men Played Old Race Horse Sure-Win Game and Got Away With the Amount Stated.

International News Service.

Oklahoma City, Ok., March 19.—Robert D. Brown, of Dubuque, Ia., and Arthur Higgins of East Grand Forks, Mich., reported to the authorities today a gambling swindle, involving race track speculation that threatens to assume proportions nearly as large as the Mabray affair.

The former lost $2,100 and the latter $3,000 on a horse known as "Babbling Water." The game was played through some local pool hall.

Operators, whose names are given as J. D. Armour and Henry Roberts, led their victims to Dallas and then to Fort Worth where the winnings on the races were promised to be paid.

Brown came to Oklahoma to buy a farm near Marlow and met Higgins on the way. Higgins had seen Armour win $40 000 on a race at Kansas City and both Brown and Higgins fell into Armour's game here.

Brown declares Roberts and Armour have victims in Missouri, Kansas, Oklahoma and Texas.

D. K. GREER AND G. F. STEINKRAUS OF TIPTON CHARGED WITH ARSON.

GREER WORKS FOR SEDALIA FIRM

Soon After Fire Thursday Morning, Greer Was Found at Home With Finger Missing—Finger Found By Burned Building.

Tipton, Mo., March 25.—Late yesterday afternoon D. K. Greer, of this city, who travels for Henry Lauphelmer, of Sedalia, and G. F. Steinkraus were arrested, charged with having set on fire the shoe shop of the latter early Thursday morning.

Greer is the man who is supposed to have lost his finger by having it caught in the back door of the structure at the time of the gasoline explosion which resulted in the fire.

The information on which the two men were arrested was signed by A. M. Clark, a deputy sheriff. Both men were taken before Justice W. H. Stinson and released on $1,000 bond to appear for preliminary trial on Thursday, March 31.

It is said that Greer sent for a physician from his home some time after the fire occurred and that when the physician arrived he was found with his little finger torn from his hand and the tendons badly lacerated.

A finger was found near the back door of the shoe shop, which it is claimed by the authorities is the one lost by Greer.

Greer has been in the employ of H. Lauphelmer, of Sedalia, for some years. He travels over a limited territory in Central Missouri, buying hides and furs. He and Steinkraus have been close friends and have been interested in business affairs together.

Steinkraus owned the building in which the shoe shop was located and it is said that Greer owns a half interest in the building adjoining. There is much excitement over the case here.

CAUGHT THE ROBBERS

J. A Koch, Detective, Arrested Robbers of C. Y. Lawrence's Home.

Acting on a messaage sent by W. E. Rickey, special agent for the Missouri Pacific railway in this city, J. A. Koch, a detective at Jefferson City, at 3 o'clock this afternoon arrested two men, who refused to give their names, charging them with having robbed the home of C. Y. Lawrence, on West Sixth street, this city, last night, at told elsewhere in this issue.

Two ladies' watches, one of Elgin make, a diamond and pearl pin, a tiger-eye ring and a sardonix ring, were found on their persons.

Special Agent Rickey and Chief of Police Boulit will go to Jefferson City at 4:30 o'clock to bring the prisoners to Sedalia.

DELIGHTFUL EVENT

WAS GIVEN BY THE WOMAN'S RELIEF CORPS THURSDAY EVENING.

A VERY LARGE CROWD ATTENDED

A Supper From 5 to 7 o'Clock Followed By Program of Instrumental Music and Rendition of Play, "Gemoron."

The members of the Woman's Relief Corps, auxiliary to the Grand Army of the Republic, gave a delightful supper at the Royal Tribe of Joseph hall between the hours of 5 and 7 o'clocck last evening, following the supper with a social evening interspersed with the rendition of a program, the principal feature of which was a comedy play.

The supper was in charge of Mrs. A. A. Fitzgerald, and consisted of roast beef, beans, potatoes, brown bread, pickles, jelly, coffee and other dishes.

A large crowd attended the supper and the sum of $20 was realized from the affair.

Promptly at 8 o'clock a play, entieled "Gemoron," written by Mrs. E. W. Dugan, was presented by the members of the corps.

The play is in one act and was ably present and was greatly enjoyed by all.

After the play instrumental music was furnished by a number of those present, after which the remainder of the evening was spent in social converse.

The affair was ably executed and furnished an evening's amusement for a large crowd, not only members of the G. A. R. and W. R. C., but a number of outsiders as well.

The W. R. C. members are arranging to give a similar entertainment in the near future, probably in the latter part of April, but plans have not yet been perfected for the affair.

First Year to End Sunday.

Sunday will be a day of special interest as it closes the first year of the service of the present pastor, the Rev. Gran A. Robbins. The church is expecting a great time at Sunday school at 9:30, when a splendid program will be rendered. At 10:45 special music will be given and the pastor will preach an appropriate sermon. There will be an unusually strong musical program Sunday evening with a sermon by the pastor.

CONVENTION TOMORROW

The convention of the democratic editors of the Seventh congressional district will convene in this city tomorrow morning at 10 o'clock in the Elks' club rooms to talk over the political situation and map out a plan of action for the coming campaign.

Besides the various editors of the district there will be the congressional, senatorial, county and city committeemen and other prominent democrats of the state, numbering in all about 250 or 300 delegates.

Among some of the most prominent will be David R. Francis, of St Louis; James A. Reed, of Kansas City; Sterling P. Bond, of St. Louis; I. D. Shewalker, of Independence, and others, who will add interest and enthusiasm to the meeting. Congressman C. W. Hamlin, of Springfield, will be unable to be present on account of havng some very important work in the house at Washington, D. C.

EDITORIAL

It was boastingly said on the streets last night that the editorial in yesterday evening's Democrat-Sentinel under the caption of "Mellor and a Clean Sedalia" made 150 votes for Mr. Mellor's opponent. That it had antagonized at least that number of undesirables who had intended voting for the democratic candidate.

This paper doesn't believe a word of the statement because it doesn't believe that there are ten, much less 150, of this class of citizens who ever even thought of voting for Mellor. And if it did antagonize them and cause them to change allegiance, so much the better.

So far as this paper is concerned, and it believes it voices the sentiments of Mr. Mellor also, it doesn't want the votes of these cattle; it doesn't want Mr. Mellor elected by their votes; doesn't want one of them after election to be able to tell him they voted for him.

Lost 150 votes, did we, by standing up for a clean Sedalia? Antagonized 150 hoodlums, outcasts, vicious, brutal, dishonest thugs by advocating the better things for our home city, where we live, where our children are being reared, where our hopes, ambitions and lives are.

Injured a clean man's chance of election by repudiating the dirty and dishonorable ways of a coteric of infamous characters who too long have dictated to the decent voters of Sedalia and held by the throat the entire municipality!

Injured his chances! No, indeed. Rather have we advanced them, for by the token of thirty Christian churches, erected and dedicated to the meek and lowly Master, by the token of 5,000 Christian homes, with their innocent boys and girls; by the token of forty fraternal organizations devoted to the brotherhood of man, this paper believes that there are enough decent, self-respecting, honest, Christian men in Sedalia to stamp the statement as false by voting for their churches, their homes, their schools, their lodges, and triumph over indecency and vice.

Let's show them. LET'S MAKE SEDALIA CLEAN!

NO AGREEMENT HASBEEN REACHED

A Convention Will Be Held at Kansas City Soon to Arrange for the Walkout—Want 10-Cent Increase on Ton.

Lexington, Mo., March 25.—The impending strike of the United Mine Workers of America of the Southwest district will throw about 2,200 men out of employment in the Lexington field.

Of this number 1,300 are employed in and about Lexington and the remainder in various parts of Lafayette county. The strike will not be called until April 1, but, as the miners and operators have reached no agreement in Cincinnati, the strike seems inevitable.

The miners and operators of the Southwest district are awaiting the action of the Cincinnati convention before calling a convention of their own to be held in Kansas City.

The convention at Cincinnati is composed of representatives of the miners and operators from Indiana districts No. 8 and 10, Ohio district No. 6 and Pennsylvania districts No. 2 and 5 in the bituminous fields. The miners ask among other things a uniform day wage scale, an advance in wages, a half holiday on Saturdays and the day men's time to start from the head rock.

Should the miners and operators in Cincinnati come to an agreement the Kansas City convention will be called at once and practically the same demands will be made by the miners with a few local additions.

They will ask for a 10-cent increase on the ton, but the advance in wages as construed by the miners and operators differs widely. The operators claim that it means a straight advance of 10 cents on the ton no matter what mining price has been paid for the two years previous. The miners say it means a 10-cent advance figured by averaging the Illinois, Missouri and Kansas basing points, which are supposed to be Danville, Ill., Bevier, Mo., and Pittsburg, Kan.

The price for pick mining in the Lexington field has been $1.11 per ton for the past two years and 67 cents for machine mining. The proposed increase of 10 cents per ton would make the miners' wages $1.21 and 77 cents, according to the construction the operators put on the demands.

According to the miners' construction this increase would amount to more than 10 cents on the ton in many places in Missouri, Kansas and Illinois. This is a point which can only be settled by threshing it out at the Kansas City convention, as it will no only affect the mining prices, but also the day wage scale.

TWELVE ARE DEAD

FLAMES IN CHICAGO FURNITURE HOUSE REAP HARVEST OF LIVES.

TWELVE KNOWN TO BE KILLED

According to Members of the Firm, Many More Victims Will Be Added to the List of Fatalities—Property Loss $300,000.

Chicago, March 25.—Twelve persons are reported dead in a fire attacking the Fish Furniture company building here today. About forty employes escaped from the flames and one girl jumped from a third story window. She was injured so badly that she died in a hospital.

According to Mr. Fish, a member of the firm, the fire started when an employe went into the finishing department on the fourth floor to get some alcohol for a cigar lighter. The electric spark of the lighter, according to Fish, stared the fire. Quickly reaching several cans of benzine, an explosion followed.

Fish expressed the belief that all the employes on the fourth floor had escaped, but could see no hope for those above. Estimates of the number on these floors runs as high as twenty-two, and the death list may reach this number. The financial loss is estimated at $30.000.

At 12:30 this afternoon seven bodies had been recovered, and with the addition of the name of Emma Lichtenstein, who died in a hospital, the known dead now number eight.

At 1:30 p. m. eleven bodies had been recovered. Three of the bodies were found together in the southeast corner of the wreckage, and their position showed that they had been in the attitude of prayer when death came.

Leo Stoeckel, who caused the fire, was found at his home and taken before Fire Marshal Moran for interrogation.

WARNS HIS PARTY

JAMES R. GARFIELD, FORMER CABINET MEMBER CALLS HALT ON POLICY.

NATION WANTS PLEDGE FULFILLED

People Have Grown Impatient Over the Non-Action of Administration and Congress on Platform Promises.

Cleveland, O., March 25.—The republican administration was arraigned here last night before the Tippecanoe club by former Governor Myron T. Herrick, who charged it with gross extravagance and asserted that the high tariff was necessitated by the immense revenue required by unbusiness like government methods.

Mr. Herrick was preceded by James R. Garfield, former secretary of the interior, who warned the republican party that the country was impatient for the fulfillment of its pledges and that its inaction or makeshift legislation would not be tolerated.

"Any department of the government would be run by a man who could run a bank or a factory at one-half the cost of the present system," said Mr. Herrick. "There has been a great outcry about the high tariff, but that tariff was framed by men who knew that they must have an enormous revenue to support the gross extravagance of the government. One of the greatest menaces that confront us today is the great bonded debts which, in time, must break down credit."

In the course of his remarks, Mr. Garfield said:

The average American is a law abiding, decent citizen. He is proud of his country and its progress and is striving to do his share of the work and get his share of the reward He has good naturedly taken his ups and downs with his neighbor, feeling that all were in the same boat. But, within the last few years conditions have developed, facts have been disclosed, that make him feel something is radically wrong. He wishes to know whether he and his family are getting an equal opportunity to make the most of their lives; he wants his fair share of property and happiness, and he resents any unjust discrimination or unfair advantage that deprives him of his share.

We, as a party have promised progressive legislation, and the people are justly calling on us for a fulfillment of that promise. They will not be satisfied with inaction and makeshift legislation. This legislation must provide for such regulation over corporations by both nation and state, as well as safeguard the public interest, prevent abuses, make more easy the enforcement of law against illegal or unfair business, and thereby fully protect the corporation that obeys the law.

Greater emphasis must be placed upon publicity in dealing with the corporation and business interests.

If men are permitted, under the form of a corporation to act secretly, some of them will inevitably act wrongfully.

Today the average American demands that his party strive for the public good first; the party good second. He pays but little attention to the mere personal success of party leaders. He will support them when they strive for the common good; he will discard them when they fail to do so.

We are again preparing for a general election. The parties and men responsible for the conduct of national and state affairs will be called to give an account of their stewardship, and they will be judged by what they have done for or against the public welfare. That is the standard we should apply.

We cannot deceive ourselves with the idea that the people will be satisfied with the mere repetition of promises; they demand and are entitled to action.

The republican party owes its success to the fact that all its great achievements have been progressive and aggressive. While it has, in successful campaigns, urged its history as a reason for a renewed vote of confidence, it has placed its main strength on the fact that it looked to the future rather than to the past.

Whenever any party fails to be progressive, tha moment its usefulness begins to wane. It is a part of wisdom and courage to hold fast to a situation gained as a vantage point in

A THOUGHT FOR TODAY.

The most utterly lost of all days, is that in which you have not laughed.—Chamfort.

BREAK PARTY TIES.

From Kansas there has just come certain striking evidence upon the question of whether the old political parties are in danger of being broken up. It is indicative of the remarkable tendency toward the wiping out of party lines, something that is giving no end of worriment to the old leaders of things in the senate and house, who have so long been enabled to maintain their authority because of the religious regard entertained by the men in congress for party affiliations, regardless of public interest or public right.

The Kansas incident is this: One of the state democratic leaders, W. H. Ryan, has announced that he does not favor the nomination of a democratic candidate for governor in opposition to W. R. Stubbs, the republican governor. He says he will support Stubbs under any circumstances for the reason that Stubbs has earned the opposition of all the special interests and the politicians and attorneys affiliated with the special interests.

Stubbs has been assailed as a populist by the machine element of his party, and Mr. Ryan looks upon this as the best possible evidence that he has been doing his best to serve the public. The same machine element has been attacking Senator Bristow, Congressman Murdock, Congressman E. H. Madison and others who have declined to regard public office as a medium through which the welfare of the corporations and special interests can be enhanced. In the stand he has taken, Mr. Ryan has the backing of many other democrats.

In other states symptoms of similar tendencies are discernible; indications that the people are waking up are apparent. It suggests the thought that if the leaders want to preserve the old party lines they will do it best not by frantic appeals for regularity, but by setting about to do things which the public is earnestly insisting on and which it has made up its mind to secure, even if party lines are smashed in the getting of them.

BLAMES THE FARMERS.

According to the statisics of the department of agriculture at Washington, all farm products, including beef-producing animals, wheat, etc., show an increase in price in ten years of a little more than 87 per cent; and this increase is the underlying reason for all other increases in the present era of high prices, declares William C. Brown, president of the New York Central, writing in a symposium in The Delineator for April.

Those commodities that are manufactured by the largest combinations of capital, or so-called "trusts" do not show anything like the increase in price that is shown by the products of agriculture.

To illustrate: From the formation of the United States Steel corporation in 1901 until the present time the prices of steel rails, Bessemer pig, steel billets, bar iron and wire nails show a decrease of 4.6 per cent. The price of sugar, at wholesale, as sold by the great refineries or by the sugar trust, so called, shows a decrease in the last ten years of almost 5 per cent. Crude petroleum, which the Standard Oil company produces in large quantities, and purchases by the millions of gallons each years, shows an increase of 24 cent per barrel, or 18.6 per cent; while refined kerosene oil shows an increase of sixtenths of one cent per gallon, or only 7.6 per cent.

No country in the world excels the United Staes in natural fertility of soil, or has a more favorable general climate, but with our careless, uninformed methods of seed-selection, fertilization and cultivation, our farms produce an annual yield of less than 14 bushels of wheat per acre, as compared with 32 in England, 28 in Germany, 34 in the Netherlands and 20 in France. The United States produces something less than 23 bushels of oats per acre, while England produces 42, Germany 46, and the Netherlands 53. Germany, with an arable area of less than some of our largest states, produces more than seven times the number of bushels of potatoes that are produced in all the states.

If population and consumption increase in the future as rapidly as they have during the last ten years and production per acre of our farms is not greatly increased, within five years from the present, or before 1915, this country will have ceased to be a food-product-exporting nation.

THE MAIN ENTRANCE.

Over in New York a popular preacher, unable to reach, in the largest available church, to more than two or three thousand persons, has his sermons printed in full as advertisements in certain of the daily newspapers, and thereby is enabled to number his auditors by hundreds of thousands.

This is a leaf taken out of the business book for religion. The business man can reach, by means of the sign over his door, the goods in his display windows and the legend on his letter head, hardly as many people as the clergyman can assemble for personal discourse. But by calling the newspaper to his aid he extends the sphere of his influence to cover the entire population within a hundred miles or more of the center of his activities.

Good newspapers are doorways to enlarged opportunity to the aspiring merchant. If you would go in by the main entrance, advertise in the Democrat-Sentinel.

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR

Who does not know of the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c and $1.00 a bottle, or is sent direct by the manufacturers upon receipt of price.

T. F. WALSH QUITE ILL

Millionaire Mine Owner Is Suffering From Tuberculosis.

San Antonio, Tex., March 25.—That Thomas F. Ryan, the Colorado millionaire miner, has contracted a particularly rapid form of tubersulosis as the result of pneumonia and has but a short time to live is the opinion of local physicians, who have come in contact with his case.

His own physicians, when interviewed, were very non-committal and confined themselves to the statement that Mr. Walsh had been greatly benefitted by his sojourn in this city. The taking of the millionaire to his home in Washington was very precipitate, however, and has given rise to a great deal of speculation.

When seen in his special train Mr. Walsh looked a very sick man. His once stalwart form has shrunk so that it cannot weigh more than 100 pounds, and there was a deathly pallor on his face. One of his physicians and a nurse are in constant attendance.

AN EXPERT'S OPINION ON SKIN DISEASES.

A prominent national expert on skin diseases whose name you are familiar with says that in all his scientific experience he has never found so hard a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, itching skin diseases, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only do its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old style greasy salves and lotions which are not only unpleasant to use but do not destroy the germ life that causes the disease. ZEMO draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Mr. Dan Wilcox will gladly supply those who call with a free sample bottle of ZEMO and a booklet which explains in simple language all about skin diseases and how to cure yourself at home with ZEMO.

AMUSEMNETS

AT WOOD'S OPERA HOUSE.

The education of a fat and jovial southern senator in the devious ways of Washington's social and political life forms the main theme of "A Gentleman from Mississippi," which will be at Wood's Opera house, matinee and night, Saturday, March 26 with the same cast that has kept Chicago in a roar of laughter for many months. Messrs. William A. Brady and Joseph R. Grismer have established a reputation for splendid production, and 'A Gentleman from Mississippi" is their latest message of this sort.

To begin with, the play is one of the most delightful comedies that has been seen in many years. Senator "Bill" Langdon has been sent from Mississippi to represent that state in Washington. The supporters of the trusts expect to find him an easy mark, but the simple old planter proves himself more than a match for them in diplomacy and fighting. He falls into the hands of Bud Haines, a young newspaper correspondent, whom he makes his private secretary, and who guides him safely over the slippery places. Langdon's daughter and the secretary form a mutual attachment and this becomes the principal love interest of the play. The old senator himself becomes smitten with a widow, his eldest daughter with a congressman from her native state also become victims of the tender passion, and the infection even spreads to Langdon's stenographer, who reciprocates the burning sentiment of a young newspaper man. The course of these true lovers is filled with the proverbial rocks and the bumps they receive provoke much hearty laughter.

"The Climax."

Taking the initiative in a field that has never been touched heretofore by other playwrights, Joseph H. Weber's comedy drama, "The Climax," by Edward Locke, is said to arouse an atmosphereic influence that makes it delightfully enjoyable. It is declared that the play, in depth of conception, originality, intensity and wholesome humor go as far beyond anything produced by other playwrights. "The Climax" is highly endorsed by the New York critics who were unanimous in proclaiming it the best thing of the season. The piece will be seen for the first time at Wood's Opera house, Tuesday, March 29.

The Griffeth entertainment is a most enjoyable one and none shiuld miss seeing the attraction. Last night some of the best tests of the engagement were used, such as political speeches, the laughing gas handkerchief, and many others. Hypnotism furnishes without a doubt the best popular priced amusement, and if any really want to be entertained and have the best laugh of the season, you still have two nights to do so. Tonight Mr. Griffeth will put on the rock-breaking contest and will break a large stone weighing about 700 pounds on the body of one of the subjects.

"The Little Homestead."

Critics have pronounced "The Little Homestead," which comes to the Sedalia theater Easter Sunday, matinee and night, one of the cleverest of modern dramas, not that it has departed into the realms of fancy, but on the contrary because it hews its line close to everyday life. As the tale implies, it is a home play with the little New England homestead as the central object, and with its characters portraying the good, the bad, the strength and the weakness of human kind. The homelike surroundings, the great heart interest and forceful situations combine in a well rounded story faithfully depicted by a strong company of talented people.

FOUND A FOREST

WAS DISCOVERED UNDERGROUND WHILE BLASTING NEAR MEDINA RIVER IN TEXAS.

WAS OF PREHISTORIC PERIOD

Investigations Are to Be Made By Prof. F. W. Simonds and His Class to Learn the Origin of the Same.

San Antonio, Tex., March 25.—While blasting for the foundation piers of a new bridge across the Medina river, traces in large quantity of a forest belonging to some prehistoric period, possibly the cretacious, were discovered a few days ago.

Large pieces of a somewhat laminated limestone belonging to either the lower or upper cretacious show profuse tracings of a flora now extinct in these parts, one of the slabs unearthed bearing an almost photographic reproduction of a leaf a little less than 10 inches in width and 18 inches in length.

Other rocks show similar leaves besides a large number of others as well as the petals of flowers. Impressions of bark and the grain of the wood have also been discovered. Insect and animal life has so far not been recognized.

Professor Frederick William Simonds, head of the geological department of the University of Texas, has been notified of the discovery and with several members of his class will make an examination on the spot.

It was at first supposed that the find might belong to the tertiary, which is well represented in Southwest Texas, and to which belong the vast deposits of lignite found in many parts of the state. But this theory has been discarded for the reason that the tertiary is imposed upon the upper cretaceous and is characterized by ferruginous sands, sandy clays and marls, the materials found on top of the stratum in which the remains were found.

This being the case there is every reason to hope that the discovery will prove of great value. The site of the find is located some 500 feet above sea level, and, to judge by the nature of the rock, was at one time aquacious if not marine, a conclusion which is amply corroborated by the vegetation found.

Ada Jones and Reed Miller will sing at Rembaugh's superb ice cream parlor all this week.

HAS AN ODD RELIC

Greenville, Mo., Resident Has Badge Made In 1860.

Greenville, Mo., March 25.—H. M. Sproule has an old and anti-bellum relic in the shape of a campaign badge made in 1860, which he prizes highly. On one side of the badge is the name and picture of Stephen A. Douglas. Mr. Sproule found the badge while digging in his yard one day a number of weeks ago.

WORTH A DOLLAR A DROP.

Fred Patchen, Manning, N. Y., writes:—"For a long time I was affected with kidney trouble which caused an almost constant pain in my back and inflammation in my bladder. Other remedies did not even relieve me, but two fifty-cent bottles of Foley's Kidney Remedy completely cured me and I have not had any symptoms of kidney trouble for over two years."—Arlington Pharmacy.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

a great campaign, but the chief benefit of such a position is lost unless it is used for further progress. This is the wide difference between the present day standpatter and the progressive.

The republican party has already recognized the new order of things and taken the first step in the progressive movement.

The great majority of our people believe in the new order of things and demand that the republican party continue to be the progressive party.

DISPUTE IS ENDED

Long and Bitter Fight Terminated in United States Land Office.

Stella, Mo., March 25.—A long and bitter fight for the possession of certain farm lands ended when Mary A. Prater, of Pineville, McDonnell county, was permitted to pay into the United States land office $100 and to enter $40 acres of land which has for some time been contested by James N. Taylor.

The land was purchased by Mrs. Prather in 1888 aand a contest was waged on alleged defects in the title made at the transfer and resulted in bitter feeling which has been responsible for several encounters of a serious nature.

The entry with the register marks the end of the contest.

EASY TO CURE

Coughs, Colds, Sore Throat and Catarrh.

Breathe Hyomei. It will cure catarrh or any nose or throat trouble if you follow directions. Don't lay it aside when the snuffling, hawking and spitting have ceased. Stick to it daily until you are sure that the catarrh germ is dead, and that your air passages are free from their poisonous influence. Hyomei (pronounced High-ome) is the only treatment for nose, throat and lung troubles that has ever been sold with the understanding that if it did not cure, it was to cost absolutely nothing.

Hyomei can be obtained at druggists everywhere and at W. E. Bard Drug Co., who guarantee it to cure catarrh, croup, sore throat, coughs and colds. A complete outfit $1.00, which is mighty cheap for a remedy that has cured more cases of catarrh than all other catarrh specialists on earth.

An outfit consists of an inhaler, a bottle of Hyomei, a supply of antiseptic gauze, a medicine dropper, and full instructions for use. The inhaler is made pocket size, of hard rubber, and will last a lifetime. And bear in mind that extra bottles of Hyomei, if needed, cost only 50 cents.

HYOMEI
(PRONOUNCED HIGH-O-ME)
Cures catarrh or money back. Just breathe it in. Complete outfit, including inhaler $1. Extra bottles 50c. Druggists.

IN J. P. COLLINS MEMORY

Touching Tribute to Late Banker By F. L. Wright.

The following tribute to J. P. Collins, late cashier of the Bank of Smithton, written by F. L. Wright, appears in today's issue of the Times:

The loss to this community in the death of J. P. Collins can not be estimated. Taken away in the prime of his usefulness, he is, and will be, greatly missed, and many a tear has fallen and many a kind word spoken in heartfelt sympathy with the bereaved family in their great and sad bereavement. Not only their loss but ours—a loss to his friends—a loss to his church and a loss to the whole community. I knew him quite intimately for over twenty years, and my knowledge of him is such that I have not words sufficient to fully express my high appreciation of his noble character. He had an unusually keen sense of honor and his word was as good as his bond.

Personally, as one of his associates in business, I am greatly grieved by his death. To be his friend and to call him my friend was a great pleasure. His was one of those choice congenial spirits with whom it was a pleasure to associate—one who was generous and kind to all—not strongly aggressive but quiet and agreeable and always on the side of right and justice. With malice towards none and charity to all his heart went out in helpful sympathy to those in distress or sorrow.

As a neighbor he was neighborly—as a friend, faithful and true—as a Christian, steadfast—as a citizen, loyal, and to his church and to his family devoted. To know him was to respect him—to become intimately acquainted with him was to admire and love him. The flowers we strewed upon his grave will soon lose their fragrance and wither away, but the influence of his true Christian character will live on and be reflected in the lives of many others, and I for one feel that life has been made brighter, happier and more useful by having known him.—F. L. Wright.

GOOD THINGS IN STORE

Great Treat Coming for All at the Elks' Minstrels.

When the curtain rises at the New Sedalia next Tuesday night it will disclose a beautiful scene—forty of Sedalia's beautiful ladies and handsome men making merry and sending forth dainty, catchy melodies which will, without question of a doubt, be more than pleasing to every member of the audience. During the course of the evening the eight end men, attired in red and green satin costumes, will make their appearance, tell jokes sing funny songs, dance, cakewalk, and, in fact, do everything that will send the audience into hysterics. A grand finale will conclude the first part and then the second part will begin.

Mr. and Mrs. Joe Bren will start the ball rolling with an act that has been a terrific hit all over the country. Mr. Bren at the piano will give some imitations that will be a rare treat, and Mrs. Bren will give impersonations of such actresses as Elsie Janis, Irene Franklin and Lulu Glaser. Her finish, "Won't You Be My Baby Boy," will, no doubt, take the audience by storm. But wait—that isn't all. Why, it hasn't commenced yet. Hold your horses, the elephants are coming—Fred Hoxie and Fatty Bosserman will give an up-to-date singing and talking act entitled NOTHING, but pay no attention to the title, for there is SOMETHING all the way through it, and these exponents of mirth and melody expect to send many a person home with the hiccoughs. And still they come—the funnyest of all black-face farces, THE BLACKVILLE POLICE COURT, which is a burlesque on the up-to-date municipal court, will be a finish to an evening that is well worth the price of admission. In this conglomeration of fun, Henry Leist will produce Gertrude Hoffman's famous Salome dance to a "fare you well," and Bosserman, as "Little Eva," ought to be a scream. There are still a few good seats left, and if you want them you will have to hurry. Remember, that on account of the length of the program, the show will start at 8:15.

IT IS CREATING A WONDERFUL STIR HERE

People all over the town are talking about the wonderful good Root Juice is doing in this community, as it has made many remarkable cures during the past few months. A well known lady who for social reasons does not want her name published, said: "I had been in poor health for several years. The doctors gave me medicine for catarrh of the stomach, gastric ulcers, indigestion dyspepsia and stomach troubles generally, but I derived no benefit. My appetite was variable—sometimes hungry as a wolf, then sickening at the mere thought of food. I was subject to dizzy spells and sick headache. I was thin, weak, despondent and nervous, and had to take some kind of medicine all the time on account of my badly constipated condition. A lady friend told me that she had suffered very much as I did, but that Root Juice had completely cured her, so I concluded to try it and before I had used the first bottle I was rapidly improving in every way. I continued taking the truly great medicine about six weeks, and if there is anything the matter with me now I don't know it. I now enjoy my food and digest it. I sleep well. I am no longer constipated, weak or nervous, and have plenty of flesh and strength." Such good reports of the great medicine are being heard all over town. It is sold for one dollar a bottle or three bottles for two dollars and a half. Those who are interested can learn of many of the wonderful things it is doing by going up to Wilcox' drug store.

What is "Quality" in Men's Clothes?

IT'S in the fabric—the weave, the sheen, the soft, rich blending of colors, the shading of tones. It's in the *draping*—in graceful lines, symmetry, proportion. It's in a hundred details, hard to define, but easy to recognize.

Your own native *sense* of quality will substantiate all we can say for clothes made by

The House of Kuppenheimer

There's a degree of finesse in the tailoring of a Kuppenheimer garment that adds nothing to the price, but a great deal to the appearance.

There's something sufficiently and distinctively worthy in Kuppenheimer Clothes that makes them stand high in the estimation of men who stand high in the estimation of their fellow men.

We await the pleasure of showing you our new styles for Spring and Summer—swagger styles for young men at school—natty, snappy styles for young men in business—appropriate styles for men of all ages.

You know how necessary they are, and probably know that HERE their cost is small. THE CORSET, THE GLOVES, THE NECKWEAR, THE JEWELRY, HANDKERCHIEFS, BAGS, ETC., in the cleverest innovations, "right down-to-date," are here in greatest assortment and at incomparably low prices.

The Gloves

All gloves we sell are sold in every city of size in America. We quote comparative prices upon these gloves with those of the larger cities, based upon a thorough investigation of the situation:

	OUR PRICE.	The Large City Price.
MONARCH GLOVES	$2.00 pr	$2.25
Derby Gloves	$1.50 pr	$1.75
Perrins'	$1.75 pr	$2.00
Vallier's Suede	$2.00 pr	$2.25
Pavon La Fonte	$1.00 pr	$1.25

In spite of two advances in the wholesale price of gloves recently, our prices remain unchanged. We guarantee all gloves fitted at our counter by our experts to be free from imperfections in every detail.

WAISTS.

Most comprehensive assortments of silk, linen and lingerie waists our waist store has ever presented.

Special value in a tailored waist $1.00
Special value in a lingerie waist $1.00

Other values up to $5.00 with extra qualities at all the popular prices.

The Corset

You simply cannot adjust the lines of 1910 garments over an old corset, as there have been radical changes in corseting this year. We sell only corsets of standard makes that have PROVEN THEIR MERIT, and our corsetiere will fit corsets to your individual figures, assuring you an absolutely perfect contour. Prices range from ..... **50c to 7.50**

The Accessories

New arrivals of salesmen's sample Belts at 1-3 to 1-2 off regular value. New arrivals of scores of Jewelry Novelties, Brooches, Pins, Buckles, Hat Pins and Necklaces. New Neckwear—Ruchings, Jabots, Handkerchiefs, Veils, Bags, Belting, Etc., all at prices you will enjoy paying.

Fidelity Council Has Attracted Attention All Oved Country.

"Security," the official paper of the Knights and Ladies of Security, published at Topeka, Kas., speaks editorially this month of Fidelity council No. 53, of this city, of which Dr. W. J. Ferguson is president, in the contest for membership of the various councils as follows:

"A stranger appears among the Big Ten this month. Fidelity No. 53, of Sedalia, Mo., hit the Top Honor List under such a head of steam that she passed into ninth place before coming to a stop. Thirty—net gain—did it.

"By reason of Fidelity's action, Eureka No. 204, of Portland, Ore., falls to tenth position, and Expansion No. 741, of Chicago, drops out of the Big Ten altogether."

This report is for the month of January, when Fidelity council had 645 beneficiary members and Queen City council No. 564 advanced to fourteenth place, with a beneficiary membership of 545. Since then Fidelity council had added about eighty new members and Queen City council forty.

AN OLD LANDMARK

STONE AND MORTAR FROM IT TO BE USED IN 10-STORY OFFICE BUILDING.

SCENE IS AT SAN ANTONIO, TEX.

Building Was Erected in 1733 and Material Used Is Now to Be Taken for a Ten-Story Office Building.

San Antonio, Texas, March 25.—After having been in situ since 1735, the stone and mortar of the Veramendi palace will be used in the construction of a modern ten-story office building.

Instead of hearing the gasconades of Spanish conquestadores and the dolce voices of senoritas, they will hereafter listen to the click of typewriters and the giggle of her who works them. No more will they look upon proud Dons from far Hispano, armed cap-a-pie and encased in helmet, visor, doublet and cuira, for hereafter twentieth century business men with green ties, pink socks, pigeon-toed shoes and padded garments will be their only companions.

Before the stones get that far, however, they will be put through the mill and made of the size used in concrete construction. They are lime stone of excellent quality and well adapted for their future mission.

With the Veramendi palace passes one of the best known architectural remains of Spanish-American civilization. It was erected almost simultaneously with the Mission San Antonio de Valero, now the Alamo, and for many years was the White House of the Spanish province of Bexar, a territory comprising all of Texas.

In those days, however, it was merely known as the governor's house, a description more suitable than Veramendi palace. The latter name it received because of its occupancy by the last Mexican governor of Texas.

The building stood in Soledad street, its site marking formerly the northeastern corner of a large public square, the center of which was occupied by the plaza des armas of San Fernando presidio.

In its rear was a big garden which extended to the banks of the San Antonio river, the whole, house and garden, being at one time surrounded with a very strong palisade and deep ditches. It was no uncommon thing to have the Indians make raids right in the city in those days, and for that reason defenses of that kind were necessary.

The old building was the scene of many a romance of love and murder. Almost in its shadow a Mexican general caused to be butchered like pigs a number of Spanish and other prisoners who had been unfortunate enough to side with the Spanish government during the Mexican revolution.

The description of this scene, picturing the assassin as he whetted the knife on the soles of his shoes every time he had slit the throat of a prisoner, forms one of the most stirring chapters in Texas history.

In the Veramendi palace Ben Milam met his end at the assassin's hand, and in its patio and the shaded walks of its gardens, James Bowie, designer of the famous knife bearing his name, courted and won Ursula Veramendi, said to have been by far the prettiest woman then in Texas.

All that remains intact of the famous old structure now are a pair of cedar doors which had swung on their hinges since 1735. They are elaborately carved and unusually well preserved. For some time to come they will swing in a private residence in this city, but it is hoped to put them in some museum in the near future.

Letter to Mr. J. L. Cone, Sedalia, Mo.

Dear Sir: Let's have a little private talk with ourselves on business; nobody else, please, read.

You want to know how to do a cheap job of painting, and have it look good. Here it is: The cheapest thing there is in the way of a good looking job—say nothing about its being good—is Devoe; the regular thing in Devoe.

The reason is: Devoe goes further than anything else. Lead-and-oil is good looking; don't go so far and costs more. The other paints are more or less short in one way or another; don't go so far and costs more than Devoe.

Devoe costs least of all; you don't mind its lasting longer, do you? We can't help it; a paint that goes further lasts longer; we can't help it.

Yours truly,
F. W. DEVOE & CO.,
New York and Chicago.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MARKETING CREAM

That Feature of Farming Is a Very Profitable Source.

Albany, Mo., March 25.—The shipping of cream from this section has become a profitable feature of farm marketing and has resulted in the establishment of stations where cream is handled.

During the recent discussion of this topic it developed that Judge A. M. Vance was the pioneer cream shipper of this locality as he began the practice before other farmers realized its importance and before cream stations were heard of.

COUGHS THAT HANG ON.

Coughs that start in the fall and hang on until spring are sure trouble breeders, unless checked and cured. Bronchitis, pneumonia and constipation are the direct result. Holy Week Services.

The Holy Week services at Trinity English Lutheran church have been more largely attended both by the members and the public than for years, and they have been successful in every way.

This evening at 7:45 o'clock the pastor will conduct the service preparatory to the Holy communion, which will be on Easter Sunday morning.

The subject of the evening is, "Who Should Come to the Holy Supper of Our Lord, and Why?"

Every member who desires to commune is expected to be present, and the public is cordially invited to the service.

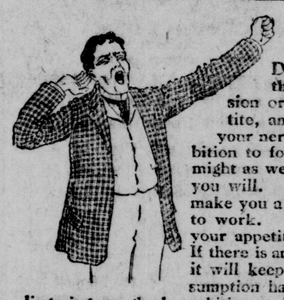
Needs of the Day Nursery.

The day nursery is in need of chairs for grown people as well as children. Doubtless there are good chairs stuck away in attics that would be very aceptable to the nursery people. Dig them out and send to the nursery, or telephone Miss Harriet Gold. The matron also requests persons having children's clothing that can be spared to send same to her or let her know by phone.

Do You Feel This Way?



Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor apetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are OF KNOWN COMPOSITION. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

A QUEER MALADY

'Dave" Powell, of Sutherland, Got Bath Instead of Sow.

Sutherland, Mo., March 25.—"Dave" Powell, of Sutherland, is just recovering from a rather peculiar malady, which was occasioned by a novel role played by him last summer when he, with a force of hands, engaged in the then popular practice of dipping hogs.

When the hands had failed to administer the sanitary bath to one obstinate sow, "Dave" decided that he could do it, but just as the vat was reached Mrs. Hog gave a lunge with the result that both she and Dave were submerged in the fluid which the veterinarians had prescribed for the former only.

The sow was not injured, but Powell has lost much time recovering from his involuntary bath.

STOMACH TROUBLE OVER

MISERY FROM INDIGESTION, GAS, HEARTBURN OR HEADACHE VANISH.

MANY SEDALIA FOLKS WILL BE CURED

Out-of-Order Stomachs Feel Fine Five Minutes After Taking a Little Diapepsin—Eat Favorite Food Without eFar.

As there is often some one in your family who suffers an attack of Indigestion or some form of Stomach trouble, why don't you keep some Diapepsin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula plainly printed on these 50-cent cases of Pape's Diapepsin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distres go in five minutes and relieves at once such miseries as Belching of Gas, Eructations of sour, undigested food, Nausea Headaches, Dizziness, Constipation and other sour Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common every-day cures advertised that they have about made up their minds that they have somethings else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and tSomach poison, which putrefey in the digestive tract and intestines, and, besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slighest discomfort or misery of the Stomach is waiting for you as soon as you decide to try Pape's Diapepsin.

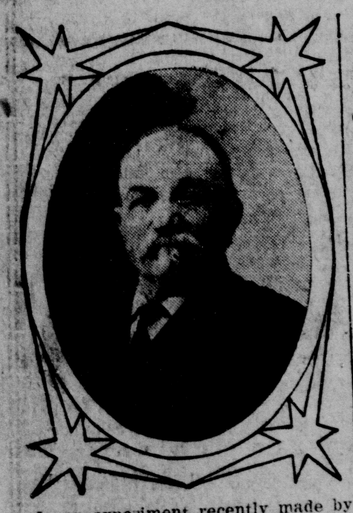
RESULTS EXCEEDED HIS EXPECTATIONS



In an experiment recently made by John Perkins, residing on Rural Route No. 2, Henniker, N. H., the results obtained far exceeded his expectations Mr. Perkins was so pleased that he made a statement for general publication, saying:

"For a number of years I was an invalid from a complication of troubles. I suffered terribly from constipation and piles, and was so stiffened with rheumatism that I could not arise without assistance. I was also troubled with dizziness. My stomach was out of order, my appetite fickle, I felt dull, weak and tired all the time, and was in a generally run-down condition.

"My wife and daughter having both used the Cooper remedies with beneficial results, I decided to try them. They proved helpful beyond all expectations. The New Discovery soon put my bowels into good condition, and the piles disappeared. My appetite improved, and I began to relish my meals, having no difficulty in digesting all that I ate. The dizziness soon left me and has not returned.

"I used Cooper's Quick Relief Liniment as an aid to the New Discovery for my rheumatism, which has not troubled me now for a long time. The Cooper remedies worked wonders for me."

L. T. Cooper, whose medicine was used by Mr. Perkins, claims that stomach trouble is responsible for nearly all illness, and that if the stomach is restored to normal and healthy activity, such diseases as rheumatism, kidney and liver troubles, etc., will quickly disappear. His preparations have certainly made a remarkable record. We are agents for them in this community.—W. E. Bard Drug Co.

Fire at Albert Kahn's.

Fire was discovered in a pile of papers and empty boxes in the rear of the Bell Clothing company, owned by Albert Kahn, at 10:30 o'clock last night, and before the blaze had been extinguished damage amounting to perhaps $1,000 had been done.

The origin of the fire is unknown. Mr. Kahn is today making an inventory of the damaged goods, and until the work is completed the exact loss will not be known. The loss is covered by insurance.

Mr. Kahn, the proprietor, when interviewed by a representative of the Democrat-Sentinel this afternoon, stated that the fire insurance adjusters would be here the early part of next week and just as soon as the loss is adjusted and settled the store will be reopened for business.

HAD FINE MEETING

Nehemgar Listened to a Splendid Paper on the Negro Question.

The twentieth session of the Nehemgar club was held Thursday night at the High school building. The attendance necessitated many extra chairs. After current events, the president, Dr. Cole, introduced the speaker of the evening, the Rev. Grant Robbins, who read a very interesting paper entitled, "The Negro in America."

Mr. Robbins took up in order the several solutions offered by various thinking men and women, but his conclusions were that education and Christianity would eventually solve the question to the satisfaction of the entire country, black and white.

An animated though amiable discussion, led by Dr. Alderman, who pronounced it the best paper read before the club this season. He was followed by Rev. Kokendoffer, H. T. Williams, J. West Goodwin, Leon McGilton, G. H. Scruton, Miss Letts said the negro race should begin its education where the white race began, that the industrial, the manual training should precede the classical education. Others taking part in the discussion were Mesdames Cole and Pratt and Messrs. Stafford and Gass.

In accordance with club usage, the speaker closed the discussion, answering many points which had arisen and reciting effectively a poem by Paul Lawrence Dunbar.

The president then announced the program for March 31, "Modern Women Authors and Their Books," by Mrs. L. C. Tallman. Another announcement stated that Prof. Buchanan, of Joplin, the founder of the Nehemgar club, had asked the favor of an exchange of dates, April 11 with the Shakespeare Memorial, April 21. The entertainment committee granted the favor, and the meeting adjourned until March 31.
